

Mr. Bibek Adhikari, (Nepal)

I was born in the naturally beautiful country Nepal in 1991. I have attended International Youth peace Ambassador Training Workshop (YPA6) in Thailand.

I am Founder/General Secretary of Youth's UNESCO Club Nepal. I was successfully involved in organizing the first international youth peace camp in Nepal through this NGO. My experience helps me out to learn how to implement new ideas with the new people through different activities. I am also the Treasurer of UNEP-NTYEN (Nepal Tunza Youth Environment Network).

Looking to my personal life and hobbies I love to listen to the music, travel a lot, photography, and learn many things from different new people. But the things I do is far different from my course of study because I am a student of Science and my major is Geology. I love to be get involved in Social work and serve for the people without any greed that is why I started the NGO with my friends who work in the field of peace and disaster management and I love doing these works.
