

Mr. Bishal Thakali (Nepal)

(goteesmonkey@gmail.com)

My name is Bishal Thakali and I am 26 years old. I live in Kathmandu, Nepal since 1995. We moved from Bhairahawa to Kathmandu for study and started living here. I am Nepali and I love my country very much.

I did my schooling from Ananda kuti Vidyapeeth, one of the oldest schools in town. After that I continued my study in Management from the high school named Bhanu Bhakta Memorial College. I completed my Bachelor's degree from Purbanchal University taking Major in Social Work. During social work study I did lots of voluntary work in different NGOs e.g.: CBR Patan (community based rehabilitation center), Shakti Samuha, BDS (Blue Diamond Society), Heart Beat. I learnt so many things about the issues going around the society through the organization and how to deal with it.

My goal in life is to learn to live peacefully. I believe "Nothing is Impossible" that is why we must try at least. I like to hear and play music apart from my study.
