I graduated from Fo Guang University in Taiwan ROC, with Master of Arts, majoring in Mass Communication.

I have been trained with ancient Values of Life (cultural preserver) since childhood by my primary school headmaster and the elders in the society.

Classical and ancient literature is flowing in my blood. Maybe I am not really good at this, but I am good in training facilitators and teachers.

My action plan for YPA6 is to promote this classical Asian value of life to the people with disabilities, including blind people in all the primary in Peninsular Malaysia.
