

Mr. Parkpob Sanidvong, (Thailand)

(roontev@hotmail.com)

My Name is Parkpob Sanidvong Na Ayudhaya. My friends call me Kaew. I was born on 7th of October 1992 in Bangkok, the capital of Thailand. I am the only child in the family. Currently, I am studying in the Faculty of Law at Thammasat University, and this is my second degree after having graduated from Ramkhamhaeng University with a BA in Political Science. I have some experience at conferences, such as the Spark conference, organized by AIESEC Thailand.

I am a cheerful person and like to help anyone if I can. My wonderful parents support me everyday, everywhere and with everything. In the future, I would like to be a diplomat or a judge, serving my country. My hobbies are playing sports especially football, reading about sports, politics and novel books. I also like to spend my time on those because it helps me relax from my job.

The reason why I decided to join the YPA6, is because I would like to develop my English and social skills. This is my first time for me to join an International conference, and I am honored to be a part of this conference. And the most important reason is peace - the goal of everything in the world, and I would like to be a part of it to make the world a better place. Peace can't be made by one person, but must be made by everyone.
