

“BRIGHTER FUTURE THROUGH
PEACE EDUCATION AT
SCHOOL”
a one-day seminar and
charity

Action Plans from Ramadhani Eko
Putranto

Background

- Students consist of highly motivated young persons.
- Students are the next generation of every nation.
- Students have so many brilliant and innovative ideas and they have a huge sense of curiosity to find any kind of new information everytime.
- Students can easily attract to new interesting things.
- They can easily managed and very fast to accepting new knowledge.

Purposes

- To spread the value of peace to Indonesian young generations so that they can implement the value of peace to their closest relatives and environment around them.
- To encourage Indonesian young generations to contribute to peace among friends at school then hopefully they brought it too to their home and environment.

Expected Outcomes

- Raising awareness of Indonesian young generations to be aware of peace and how beautiful peace is.
- The event will give a brief message about peace and the students will spread the message of peace and love to people around them.

Explanation of The Actions

- Approaching the nearest Elementary Schools, Junior High Schools, Senior High Schools and my university to tell them about my plan and soon make an agreement with the schools to assist this event.
- After the schools have successfully decided, find some donors to sponsor the event to provide books and etc.

Cont.

- ◉ Next step, starting the seminar .
- ◉ Give participants some chances to ask questions regarding peace-making and all other related topics to peace.
- ◉ At the last session, the charity will be raised to help the war victims in Middle-East through Dompot Dhuafa (an International Charity Foundation in Indonesia).
