Where is Blora?

Introduction

Blora has many natural resources

1. Cepu, the biggest oil producers in Indonesia
2. Has good quality of Kayu Jati
3. Has many potential places for tourism

UNFORTUNATELY

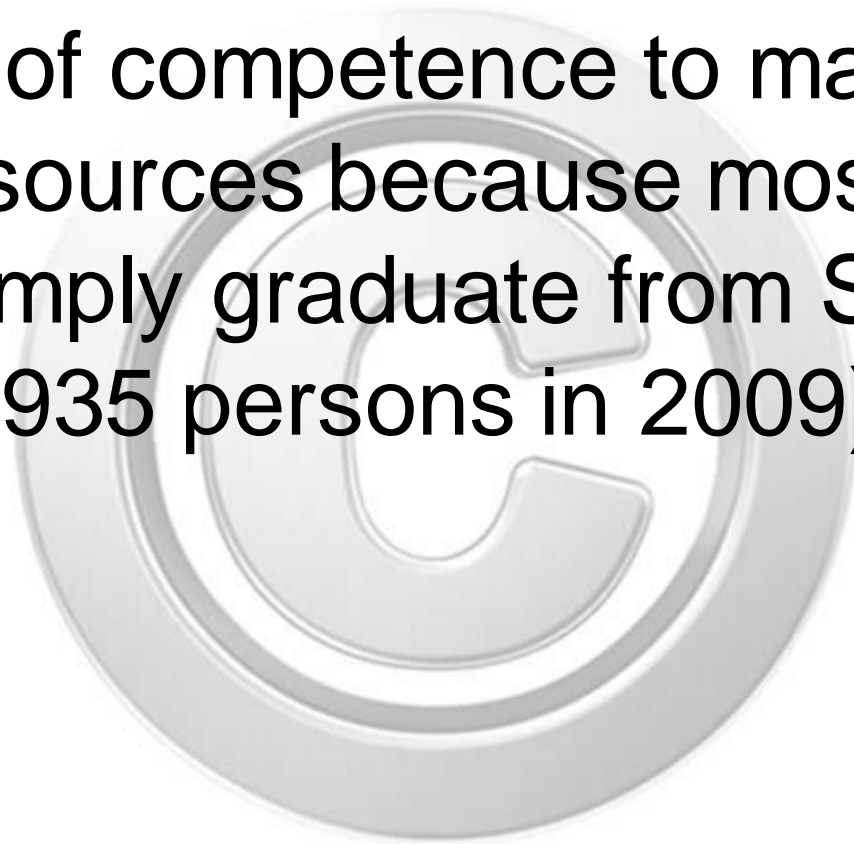

Almost of the resources are not managed by

local people. **WHY?**

Facts

- They lack of competence to manage their natural resources because most of people in Biora simply graduate from Senior High School (1.935 persons in 2009)

WHY?

- Almost of citizen in rural area only graduated from senior high school
- Because of it, they only become a laborer, not an owner of their resources
- From our observation, the rural citizen perceive that their future will stuck as before
- Though, parents have no intention to encourage the children to get higher education

That's why we Wanna Make

FORCE “ Expect and Achieve Future”

Goal

- To encourage Children in Biora become involve to manage their potential natural resources

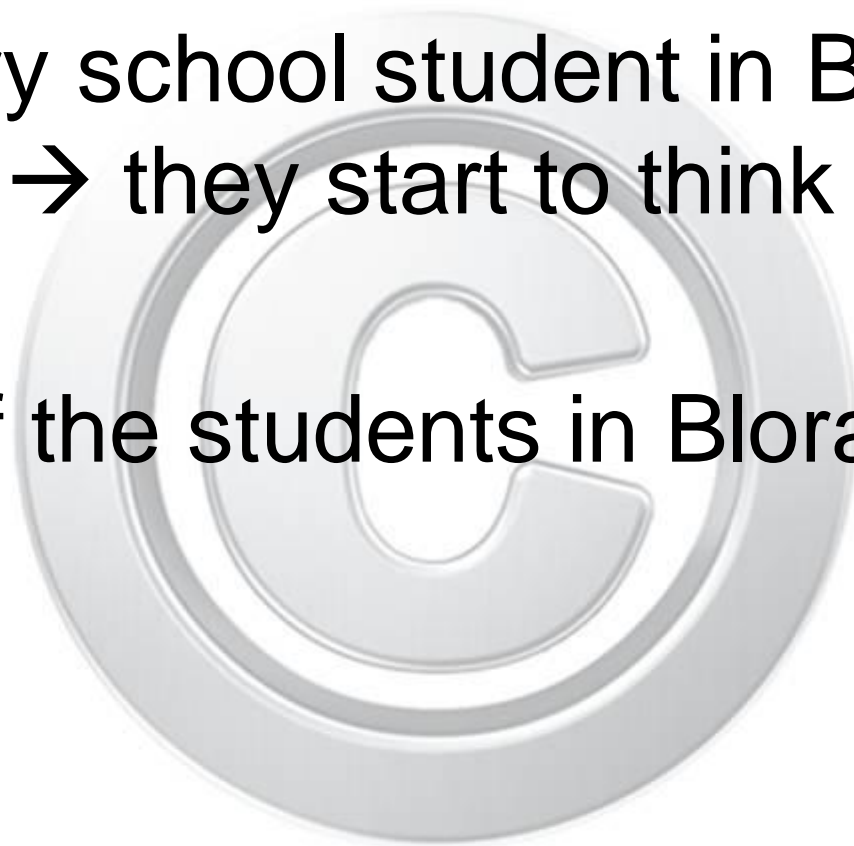

Objectives

- To encourage children have a high expectation for their education
- To give a new perspective for parents to encourage their children to have high expectation
- Children and their parents should have their own future plan

Target

- Elementary school student in Biora (4th and 5th grade) → they start to think about their future
- Parents of the students in Biora

Indicator

- We visit 5 schools in Biora
- All children make planning for what they want to become in the future
- Children and parents have their agreement for future education plan

Stages of the project

1. Call for volunteer
2. Collecting data (need assessment):
discuss with stakeholders and parents,
alumni network
3. Propose program to the school (30
students for pilot)
4. Preparation for Seminar
5. Seminar (twice), job introduction

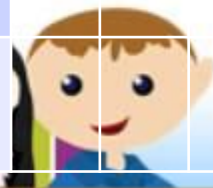

Cont'd

6. Training and discussion about who I am and who I Will be
7. Create future plan
8. Agreement between children and parent
9. Dream party → show students' dream and talents
