

Mr. Benjamin Morris (Wales)

(morrisb3@uni.coventry.ac.uk)

My name is Benjamin Morris, I'm 25 years old and I was born in Cardiff, Wales, UK. I'm currently reading for a BSc in Disaster Management and Emergency Planning at Coventry University. I'm a very active and outgoing person, I enjoy socialising with others to learn from their experiences. I am well-travelled, having visited numerous countries around the world. This has given me the opportunity to learn from and embrace many different cultures. I relish new experiences and am always willing to give new things a try, even if I am outside my comfort zone. This has led me to try out activities such as skydiving, scuba diving, bungee jumping, canyon swinging and jumping off a building, among other adventurous pursuits.
