

Mr. Fery Sandria, (Indonesia)

My work for peace started when I was given an opportunity to spend a year of exchange in the USA. There, I attended the BUBW Conference which was concerned about cross cultural and faith understanding in Baltimore, MD. In my community, I'm currently appointed as the manager of Youth Event in AIESEC Universitas Indonesia. We're organizing a number of actions for youth like conferences, seminars, summer programs, etc.

I'm currently studying Russian Studies and Literature at Universitas Indonesia, the East European Department. I'm also actively studying French, Spanish and German. I envision my future as a profound writer in the work of humanities, culture and fashion. I walk the path with Gandhi's words echoing in my head "No matter what you're doing in life is insignificant, but it's important that you do it, cause no one will".
