

Ms. Kresna Lintang Pratidina, (Indonesia)

ankresna.lintang@ui.ac.id

I am Kresna Lintang Pratidina, a third year student at the Faculty of Public Health, Universitas Indonesia, majoring in environmental health. I was born in Bekasi, a lovely city in Indonesia, on 7 July 1992. I am not only very active in academics but also in many other student organizations and university/faculty events, such as:

- the Environmental Health Association, Fakultas Kesehatan Masyarakat Universitas Indonesia (Envihsa FKM UI)
- Orientasi Kegiatan Kampus Universitas Indonesia (OKK UI)

I am really interested to broaden my perspectives and improve my skills in general. I believe that becoming a part of the Youth Peace Ambassadors International family is the best platform to learn how to implement my ideas related to peace building, and transform them into real actions. This priceless event, such as the YPA6, will improve my skills and broaden my knowledge.
