

# Dream Tree Project

(to reduce the risk of natural disasters)

**Mustika Sari Virginia  
(Indonesia)**

**Rizky Arief Kautsar (Indonesia)**

**Monicha Sari Virginia  
(Indonesia)**

**Trifani T Prihantini (Indonesia)**

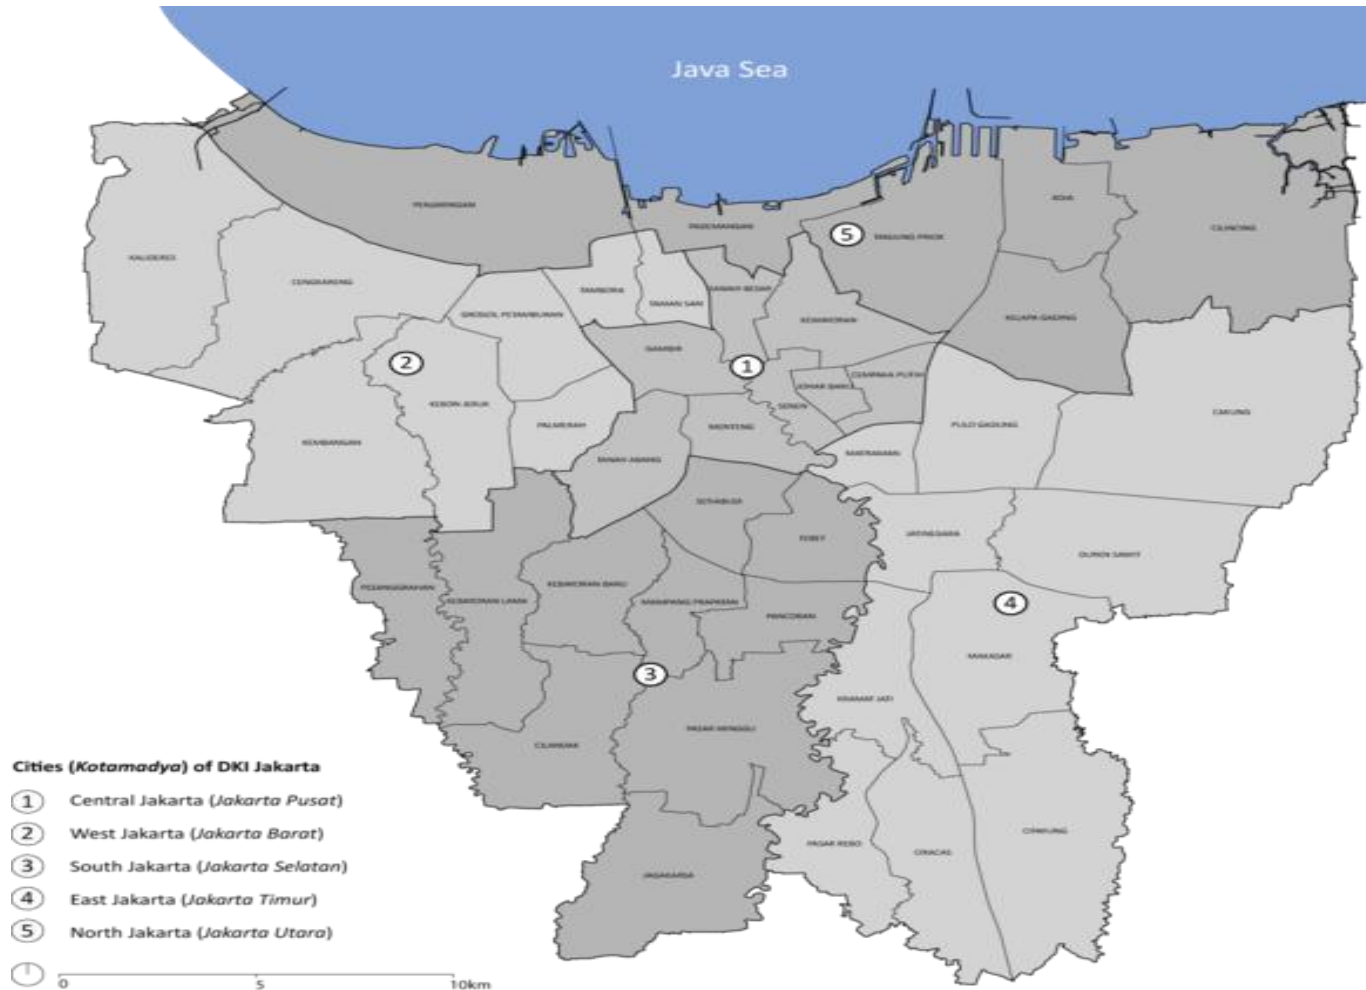

# Background

- Continuing our **first action plan** about flooding in Jakarta.
- We want to reduce the impacts of natural disasters such as **Global Warming** in Jakarta because Jakarta is one big contributor of air pollution in Indonesia and has a little number of trees.
- Related disasters include **flooding** and **air pollution**.

# Target Area

**Jakarta City**, because they having some problems about Flooding and Air Pollution

# How it will works

## Short Term:

1. Get some **photos** in target area (Continuously)
2. **Record** about the situation
3. **Interview** some residents in target area
4. Make **a workshop, open discussion** with the resident about this case
5. Make **a Blog About Dream Tree** (Campaign)
6. Continuously doing Reuse, Reduce and Recycle activities in our communities (**Zero Waste**)

## Long Term:

1. Making **Planting trees** in some area in (Continuously)

# Schedule Time:

We will start our action plan from the **short term plan** first and the time is about 6 months and we will start in September 2012.

## 1<sup>st</sup> -3<sup>rd</sup> month:

Collect some **photos** and **information** in target area and also making **video documentation**.

## 4<sup>th</sup> month:

Do some **survey** to residents in target area, the survey is about what they want and what they hope to be life better in Jakarta. We will make survey form first.

# Schedule Time:

## 5<sup>th</sup> -6<sup>th</sup> months:

Do **workshop and presentation** to our community and making **blog or website** to sharing about the information. And make a **planting trees community**

## 7<sup>th</sup> months:

Evaluation

# Schedule Time:

- The time to start our long term plan is **after we done our short term plan**, but actually we need about one year to implemented our short term plan.
- And for the long term plan we need time to do **fundraising** to support us doing planting trees. The budget for the long term plan we will give it later.

# Aims of Action Plan

- In the short time we want to **make people know** about how important to save our environment.
- To reduce **flooding impact and air pollution** in target area (Jakarta).
- Widely we want to contribute in reduce **Global Warming**.

# Methods of Evaluation

- **Control** our blog or website monthly to see the interesting of the respondent.
- **Survey every 3 months** using Internet Network or direct survey to the target.
- Take some **photos** in target area to see the impact of action plan.

By recycling just one glass bottle,  
you save enough electricity to power a 100\_watt bulb for four hours.
