PSYRESC

PSYCHOLOGY RESCUER CLUB

disaster...

leads to many psychological problems

It's already become a common understanding that disasters are not only destroy the physical things **but also the psychological aspects** of the survivors

Problem?

in Indonesia, activities that concern to the psychological aspects of the survivors are still not sufficient.

</3

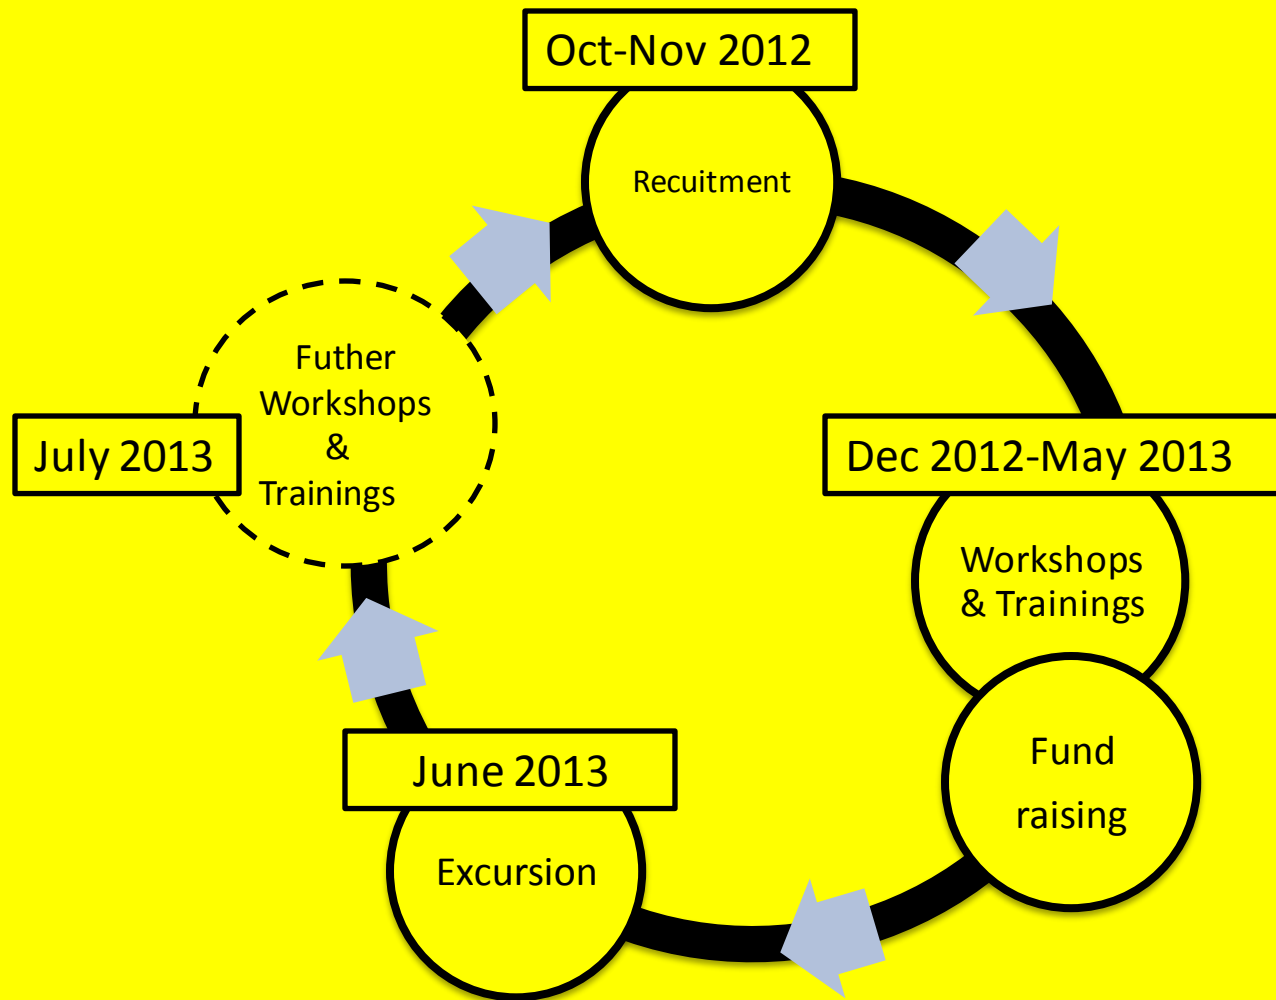

PsyResC

PsyResC is going to be a working group that facilitates psychology students to knowing more and practicing psychological first aid and psychosocial support for people especially people who have been affected by disasters

How I Maintain PsyResC?

Priority Needs

Enhance capacity
building of
PsyResC
members

Provide partnership between
PsyResC and some
institutions to help me
arranging materials that are
necessary to be delivered to
PsyResC members

Budget

Publications

(Posters, Flyers, Banner, etc)

\$ 200

Training and Workshops

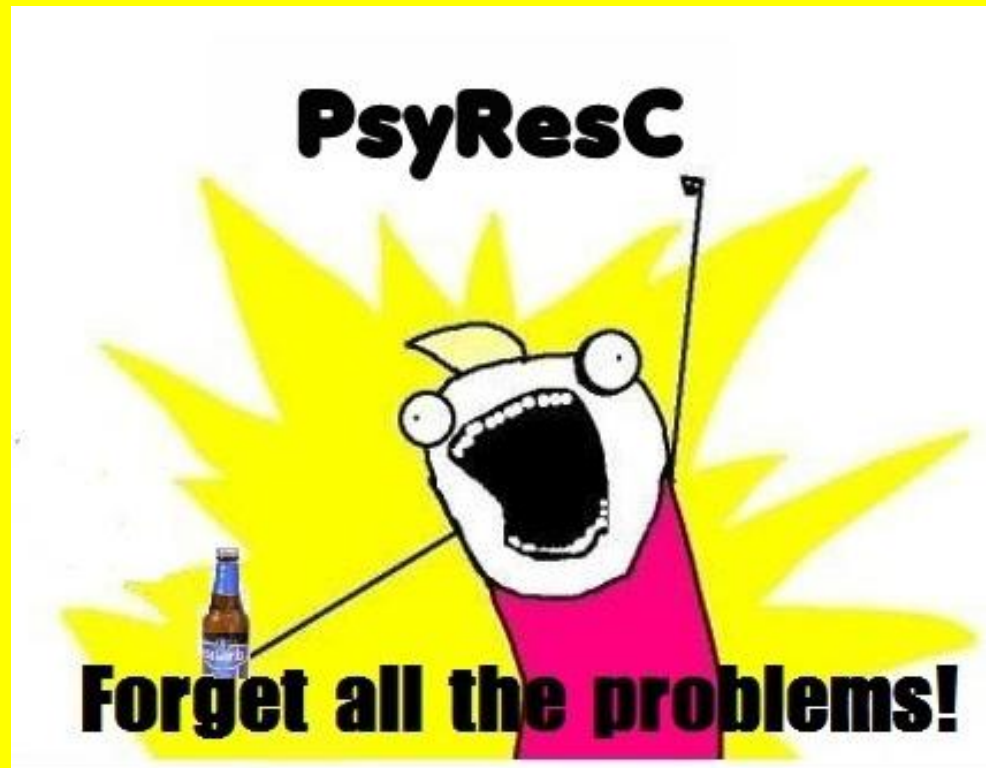

(Document copies, Speakers accommodation, etc)

\$ 700

Accommodation during Excursion

\$ 800
