

The background of the slide is a nighttime photograph of a city square. In the center is a tall, illuminated monument with a tiered base and a spire. In the foreground, large, illuminated letters spell out 'JOOGJA'. To the right, a building has a sign that says 'PAINTHINK.COM'. To the left, there are signs for 'GITA' and 'SANTIA'. The scene is lit with warm, yellow lights.

Founding KRI (Komunitas Relawan Indonesia -Disaster Volunteer Community Indonesia) and Holding a Disaster Anticipation Festival in Yogyakarta

Let we show you the
beautiful scenery of
Yogyakarta ...

Mount Merapi

Gunung Kidul Beach
and Cave

Prambanan Temple, Yogyakarta

In the last several years
there have been two **big**
disasters in Yogyakarta ...

Bantul Earthquake
May 27th, 2006

Dead : 6,234 people
Injured : 36,299 people
Houses damaged : 135,000

Mount Merapi Eruption
October, 2010

Dead : 277 people

Yogyakarta lays on an **earthquake fault line** and Mt. Merapi is the one of most **active volcanoes** in the world. So, it possible that another earthquake or Merapi eruption **might happen again soon in the future.**

We want to **protect** Yogyakarta, we want
to **save** the people if the disaster
happen.

What we'll do?

Based on:

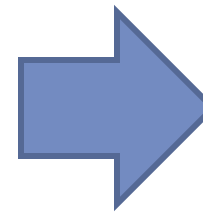

“Indonesia needs to have a rapid response team for disaster management that is community-based.”

- Mr. Surono, Head of the Indonesian Centre for Volcanology and Geological Hazard Mitigation

KRI

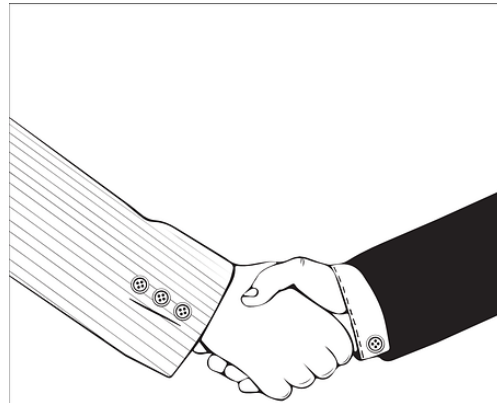

People with the same purposes and passion

Disaster Volunteer Community

Great Collaboration

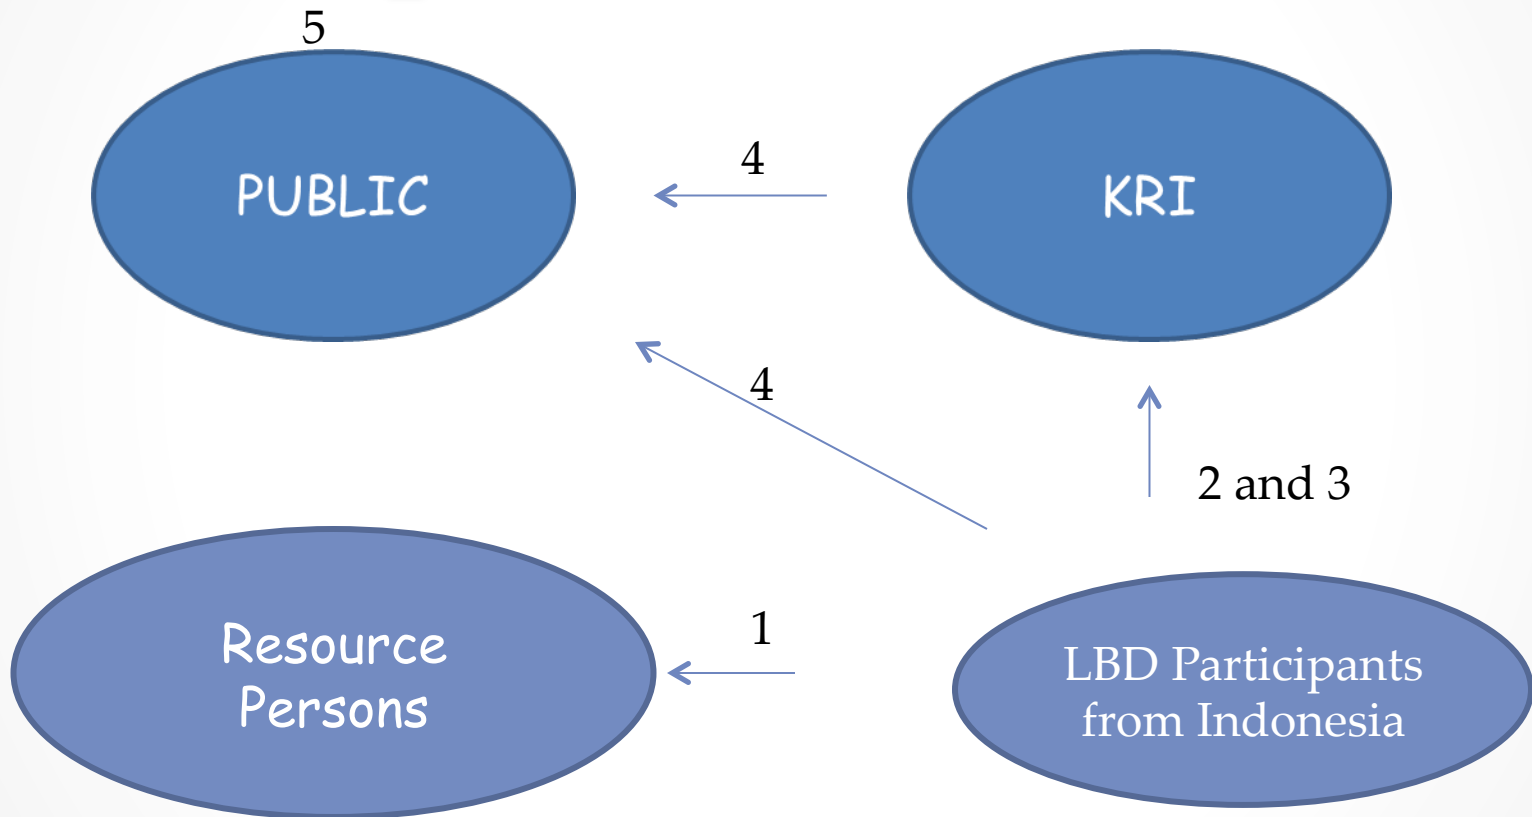

BNP B

Right Now KRI (Disaster Volunteer Community) become the community that stand under BNPB (National Berau of Disaster Management)

Advantages

- Easy to get sponsors (National Bureau of Disaster Management)
- The community is easy to get people attention through the community that stand under National Bureau of Disaster Management
