# Background

Look at the post-its on the Wall from LBD3

We need Money when disaster happens

# ”Raising Funds for LBD for Disaster areas”

1 Gather Money from Company that agrees to our LBD actions (\$50,000)

2 Invest the money (Buy Stocks).

Require collaborators who have knowledge about stock investment

# Distribution of Benefits

1 Member who needs to utilize the fund for the relief activities, makes a disbursement plan

-Fund must be utilized only for disaster relief activities

-Only LBD members can make plan.

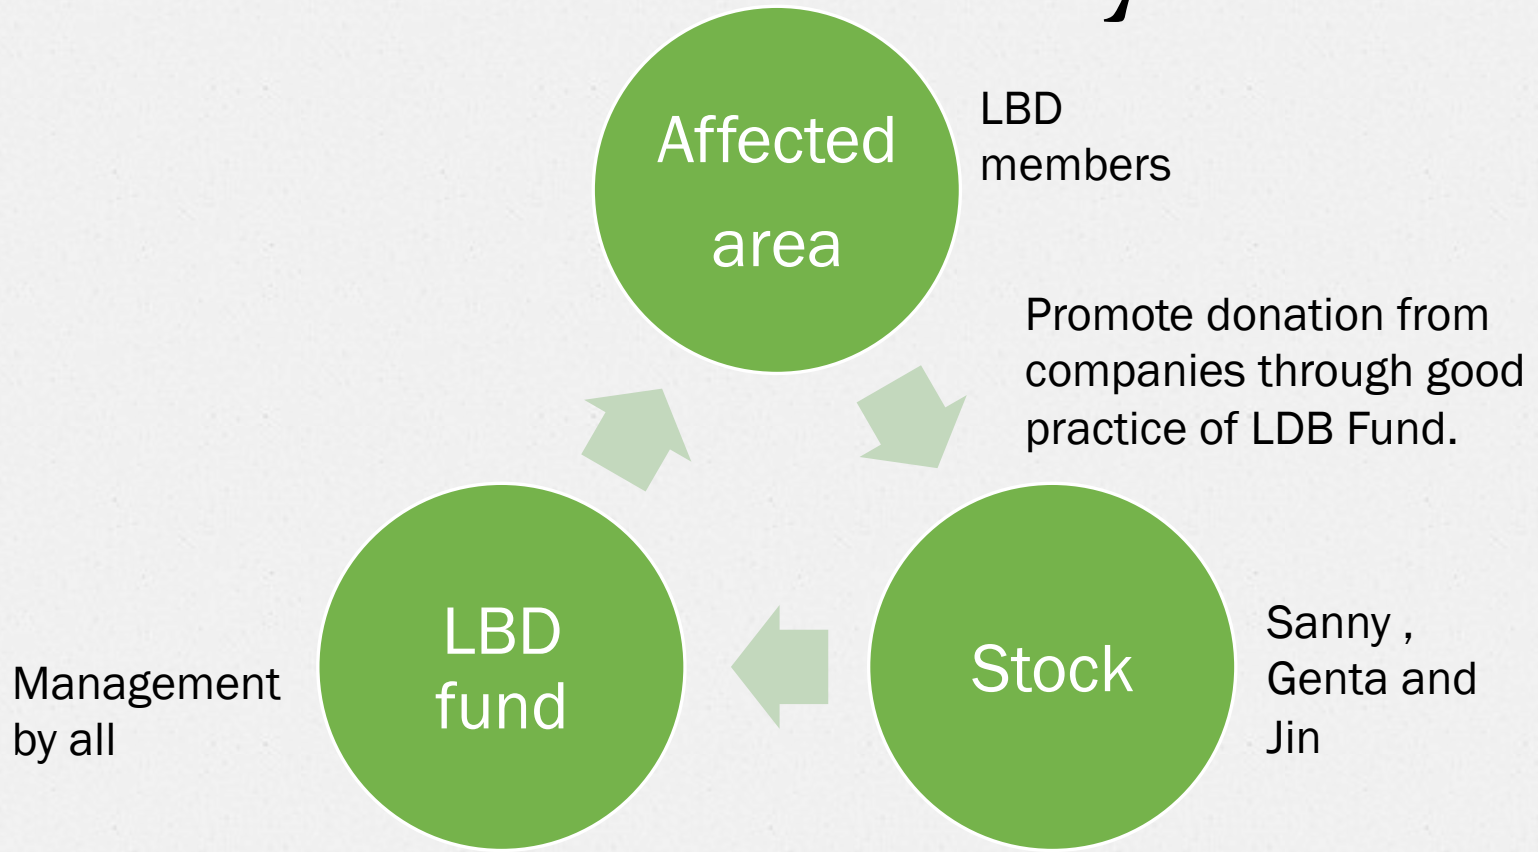

2 Discuss among members on Social Media (eg. Facebook) if the plan is reasonable and adequate, and vote to decide it.

# Benefit for disaster relief

Our idea is to produce benefit by stock investment and all the benefits will be used in a affected area of natural disaster as a fund of disaster relief activities by the member of LBD.

And we cannot take any responsibility for the loss of stock investment because it is invested just for volunteer activities

# Flow of money

# Difficulties and merits

## Difficulty

- How we can get initial capital?

## Merit

- We can keep connected with each other after going back to our own countries.

(I want to maintain our Relationships and bond)
