LBD5 Action Plan

Photo by: Wallen Ponce

The background of the slide features a close-up photograph of several green leaves with prominent veins, set against a soft, out-of-focus light green and yellow background. The leaves are positioned around the edges of the frame, with some overlapping.

Rationale

This project extends the action plan developed in LBD4, and will be implemented by the student council of St. Paul University Quezon City. It focuses on the awareness and preparedness of the indigenous people to disasters to prepare them to the possible disasters due to disasters (caused by typhoons, landslides) that may occur to their land. There is existing cooperation with an Aeta community, so there is a trust relationship.

The background of the slide features a soft-focus image of several green leaves, likely from a tree, with some leaves showing a slight yellowing at the edges. The leaves are arranged in a way that they appear to be part of a larger plant, with some in the foreground and others blurred in the background. The overall color palette is a mix of vibrant greens and pale yellows, creating a natural and fresh atmosphere.

Objectives

1. To improve the awareness and preparedness for disasters of Aetas, an indigenous population
2. To provide and distribute survival kits to indigenous communities
3. To demonstrate the uses of the tools of the survival kits to the Aetas
4. To teach them basic first aid

Why give out survival kits?

- Disaster preparedness and awareness will reduce risks of danger.
- To give them knowledge on different possibilities for their action during a disaster and to help them make quicker solutions.

Implementation Plan

- ✓ Volunteers
- ✓ Funding
- ✓ Programme for the project
- Completion of survival kits
- Actual Implementation of the project
 - Distribution of the survival kits
 - Demonstration of the uses of the different tools in the survival kit that will be used in times of disasters
 - A brief background will be given to give a little knowledge on the understanding of the purpose on using the survival kits.

Implementation Plan

Time Table (2014)

	June	July	August	September	October
Planning					
Collection of funds					
Gathering of materials					
Setting of schedule					
Implementation of the project					
Evaluation					

Budget

Seminar Venue	Provided for No fee
Survival Kits (100 kits) <ul style="list-style-type: none">• First aid kit• Whistle• Tumbler• Flashlight• Medicine• Match stick• Rope	Php 30 x 100 Php 10 x100 Php 10 x 100 Php 15 x 100 No fee (to be given by Largen Med, Inc.) Php 2 x 100 Php 20 x 100
Food (snacks and juice)	Php 4000
Transportation (Vehicle rental, gasoline)	Php 5000
Total	Php 17000 = USD 415

The background of the slide features a soft-focus image of several green leaves, likely from a tree or shrub, with some leaves showing a slight yellowing at the edges. The leaves are scattered across the top and sides of the frame, creating a natural, organic feel. The overall color palette is dominated by various shades of green and yellow-green.

Source of funds

- Income generating projects of the Executive Council of St. Paul University QC
- Community extension program funds of St. Paul University QC

Confirmed Partners

- Red Cross Youth of SPUQC
- Largen Med, Inc
- Youth Looking beyond disaster

Potential Partners

- Co delegates from LBD
- Humanitarian Affairs UK
- ASEACCU
