

“Living With Disaster”

Suci Rhohmalini - Indonesia

Nguyen Thi Ngoc Mai – Vietnam

LBD5 Action Plan

Overview

- * A Comparative Study of Two Parallel Action Plans implemented in Indonesia and Vietnam addressing:
 - * Risks from Marapi Mountain in Padang, Sumatera - Indonesia
 - * Flash floods in North West Region - Vietnam

Marapi mountain in West Sumatra

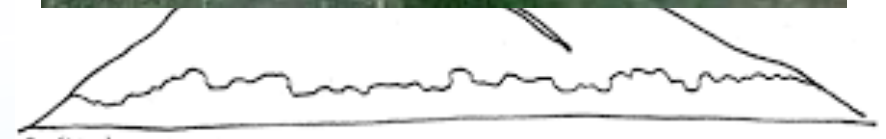

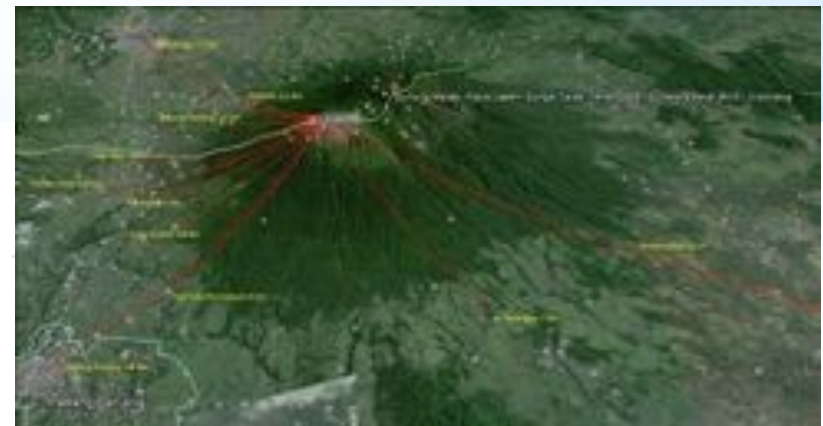

Marapi mountain in West Sumatra

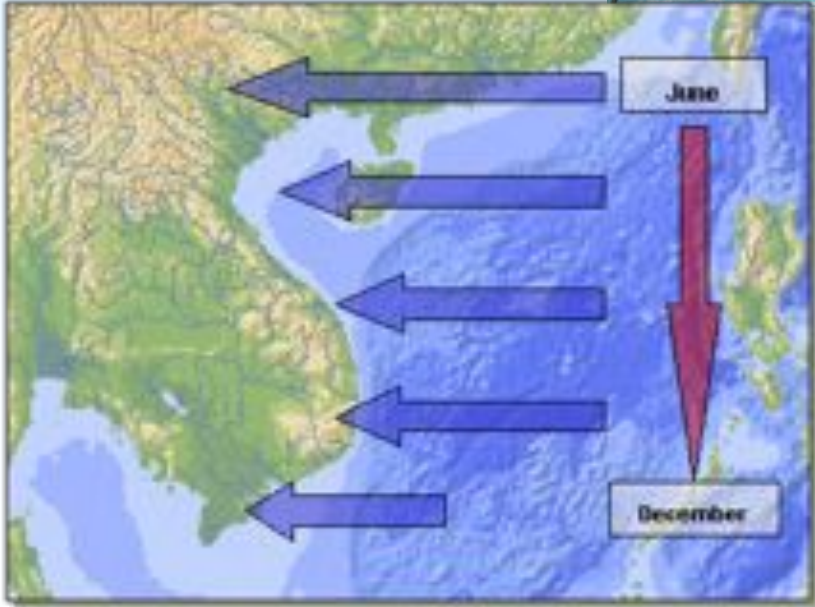

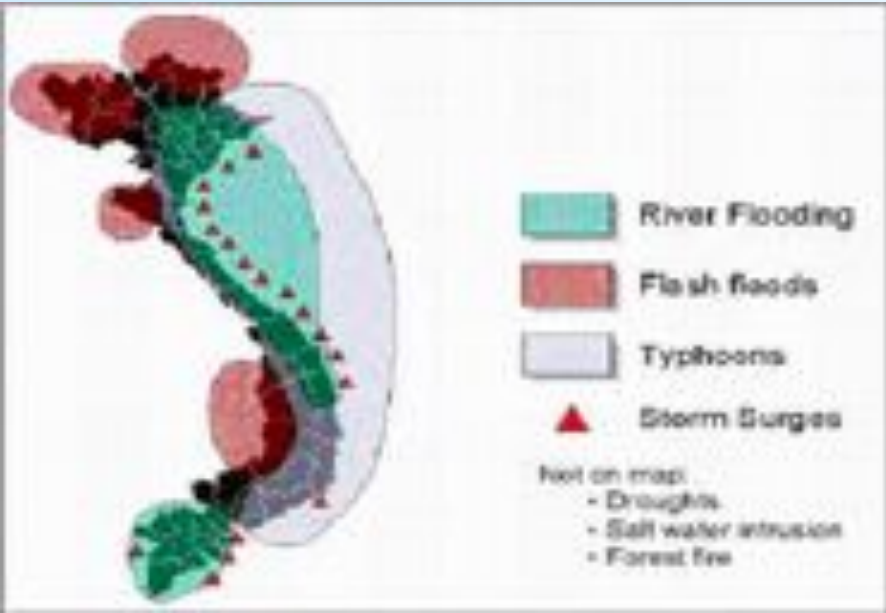

Over 500,000 people are exposed to the risk of volcanic eruption

The health of over half of this population are severely affected

Marapi is in a state warning and emitting smoke 3 times a day

Large Scale Flooding in Vietnam

HIGH

MEDIUM

LOW

Flood

Hail & Rain

Earthquake

Typhoon

Drought

Landslide

Inundation

Erosion

Fire

Deforestation

Salt Water
Intrusion

Over 70% population are threatened by water-related disasters

Over past 25 years:

- 13,000 were killed
- Millions of houses were destroyed
- Thousands of people were lost

Flash flooding in North West Vietnam

Many lives were lost and families broken

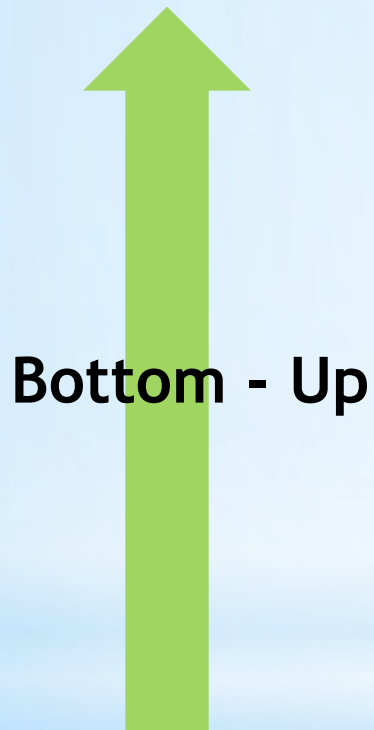

Many children were orphaned

Transportation was severely crippled

Two approaches to the project

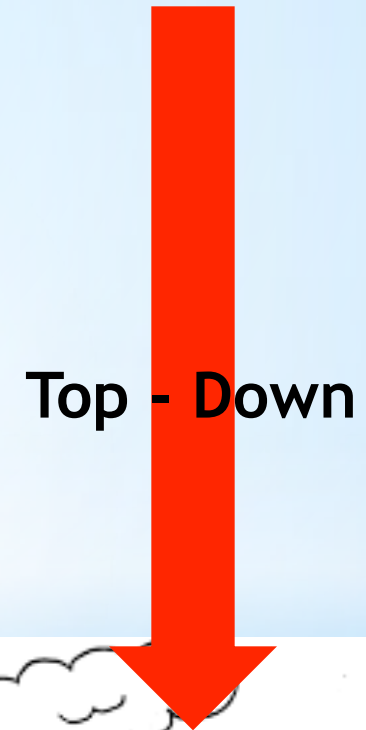

Bottom - Up

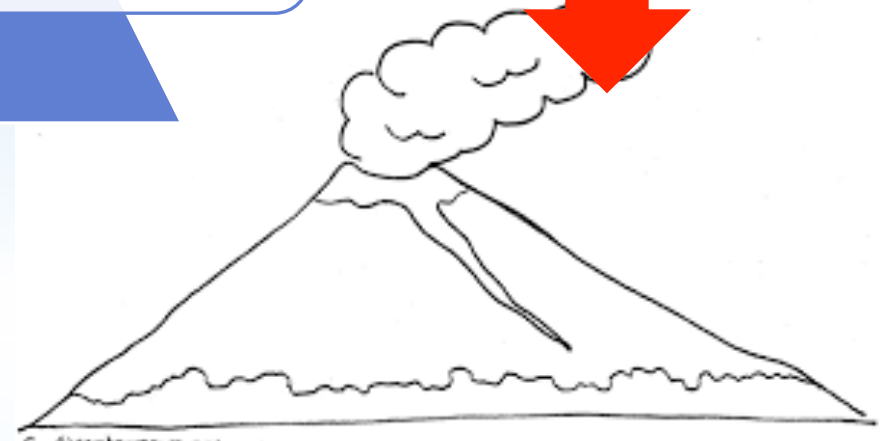

Government

Community

Local people

Top - Down

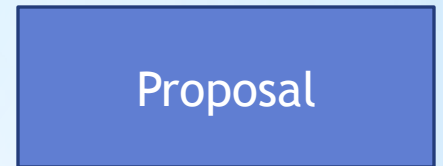

- School-based Education
- Experience sharing
- Workshop and training

Local

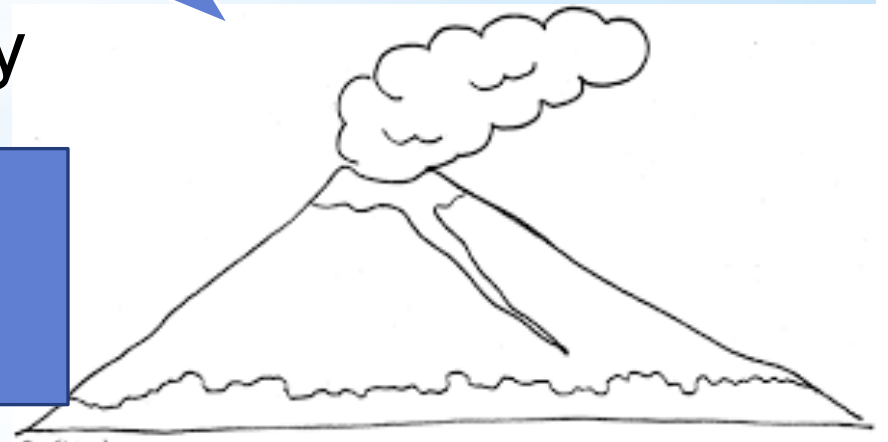

Government

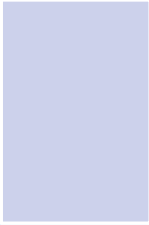

Proposal

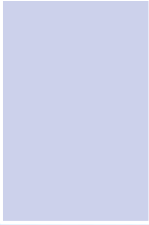

Society

NGOs
Volunteers
Media

Seminar and training workshops for residents at risk with the theme of “living with disaster”

Learn from local and traditional knowledge of the people

Collaborating with government to help communities and people
Look Beyond Disasters.
