

# Ikbar Sallim Al Asyari (Indonesia)

([ikbar.alasyari@yahoo.com](mailto:ikbar.alasyari@yahoo.com))

Hello my dear brothers and sisters. I'm a student majoring in Marine Science, with a concern to oceanography, at University of Brawijaya, Malang, East Java. I'm a diver, I'm working on marine ecosystems such as mangrove, coral reefs, seagrass to make it a balanced ecosystem to reduce disaster risk.

I've joined LBD in 2013 and LBD5 in 2014. I'm concerned about coastal area management. I implement it at our conservation area at Kondang Merak beach, Sea South of Malang. I conduct a long term project with my partners as my action plan called i-WoCa (International Working Camp) at 2013 joined by 16 countries all over the world by purpose engage youth to give positive impact to the society, the environment, and make peace among youths.

Just feel free to contact me anytime:
