

Ms. Novalita Arisanti Irawan

novalitaarisanti@gmail.com

I was born on November, 19th.1994 in Palembang but I moved to Batam because my parents moved there. I am from STIKes Awal Bros Batam in Indonesia, I'm taking a program in midwifery. Basically, I started to study to be an accountant, but half way, I made up my mind to change my field of study because I felt that accountancy is a boring activity dealing with a laptop for hours without knowing what's happening out in the world.

In Indonesia there is a program to help achieve the Millennium Development Goals. The program is how to decrease mortality due to pregnancy and delivery, which in Indonesia is a kind of a disaster. So, that's why I joined Looking Beyond Disaster 4 and LBD5 because I think I will get the solution. Contact me on +62 878 9400 3272.
