

# Mr. Binod Prasad Parajuli (Nepal)

(binodpparajuli@gmail.com)

He is currently doing his Masters in Central Department of Environmental Science (CDES, TU). As a student of environmental science, his interest mainly lies in environmental causes, climate change adaptation, renewable energy and disaster risk reduction.

He has about 5 years of working experience in the field of climate Change Adaptation (CCA) and Disaster Risk Reduction (DRR), highlighting some of his past activities he has worked as a network coordinator for an informal youth network “Youth for Disaster Risk Reduction (YDRR)”, later worked with couple of NGOs as a program officer and program coordinator, but he loves to call himself a youth activist. Furthermore, he was involved in relief and response work for about 3 month after the strong earthquake (Gorkha earthquake) of 7.9 Richter scale hit Nepal on 25th April 2015.

His goal is to learn about the dynamics of nature, Climate Change and disaster management with the mutual exchange of information between diverse groups of participant from throughout the world.
