

# Mr Dipak Panta (Nepal)

(dipak93@yahoo.com)

Currently pursuing a Bachelor's degree in management. He is mainly interested in social activities, he loves to capacitate youth and children about social and environmental issues.

He has worked before as a volunteer for the Kalika youth club as an active member and have been involved in several social works for more than two years. Also, I have volunteered with my club after the recent earthquake in 25<sup>th</sup> April 2015 in Nepal.

Being a student of management I am working in the field of community management and I would love to see myself working as one of the youth activist to raise the awareness level about several social issues in my community.
