

Mr. Nischal Malla (Nepal)

(nischal.malla2015@gmail.com)

I was born and raised in Kathmandu, Nepal. Currently I've accomplished my high school and planning of joining college for under graduating in course; Social work and development studies.

I have attended the Youth Looking Beyond Disaster (LBD7) conference in Nepal 27 October to 31 October 2015. I've been involved in different voluntary events, skill building workshops and even participating in different disaster preparation, rescue and risk management trainings from NRCS and other INGOs.

After the Gorkha Earthquake 2015 in Nepal I've been much more active in different voluntary activities through NGO Focus ED Nepal which has now made me more curious in development sector and to find what, where, how I could contribute which could be very worthwhile.
