

Mr. Uch Chamroeun (Cambodia)

(uchchamroeun111@gmail.com)

I am a Cambodian student who got a scholarship from the Korean Government to pursue a Master's course of International Law at Dongguk University. I work very hard and with great enthusiasm on both my academic performance and extracurricular activities. Throughout Secondary School and High school, I was an outstanding student at the school and provincial levels. I was named a National Outstanding Student in 2008. At the same time, I received several academic awards from Ministry of Education Youth and Sport of the Kingdom of Cambodia. Because of my good academic performance, I was granted scholarships from two universities at the same time. At the Royal University of Law and Economics I majored in Law, and at University of Cambodia I majored in English literature. The National Scholarship at the University of Cambodia is awarded to students who study hard, and are fluent in English proficiency, because all the university courses are conducted in English. I always was in the 1st place in my competitive class at Royal University of Law and Economics, with a full GPA: 4.00, and was also awarded the first top outstanding student in my law class at RULE every year as well as maintaining my place as an outstanding student at University of Cambodia. Academically, I have successfully completed my Bachelor's degree with excellent academic results for the academic year 2011-2012. Socially, I have participated in many informative and productive programs nationally and internationally.

My personal goal is to play a part in bringing the world together as a whole to grow together as one community in peace, bringing smiles to the world, joining hands to make a peaceful global community a reality. Spiritually and interestingly, I would like to join empowered young professionals and youth from around the world with the Youth Peace Ambassadors (YPA9) International in building peace in the world.
