Problem statement

Nelson Mandela mentioned that Education is the powerful weapon which you can use to change the world.

This implies that education is vital in shaping everyone's life. But, it is hard to think that not everyone is given a chance to this right of education because of some hindrances such as poverty that still remain as one of the biggest problem of the Philippines.

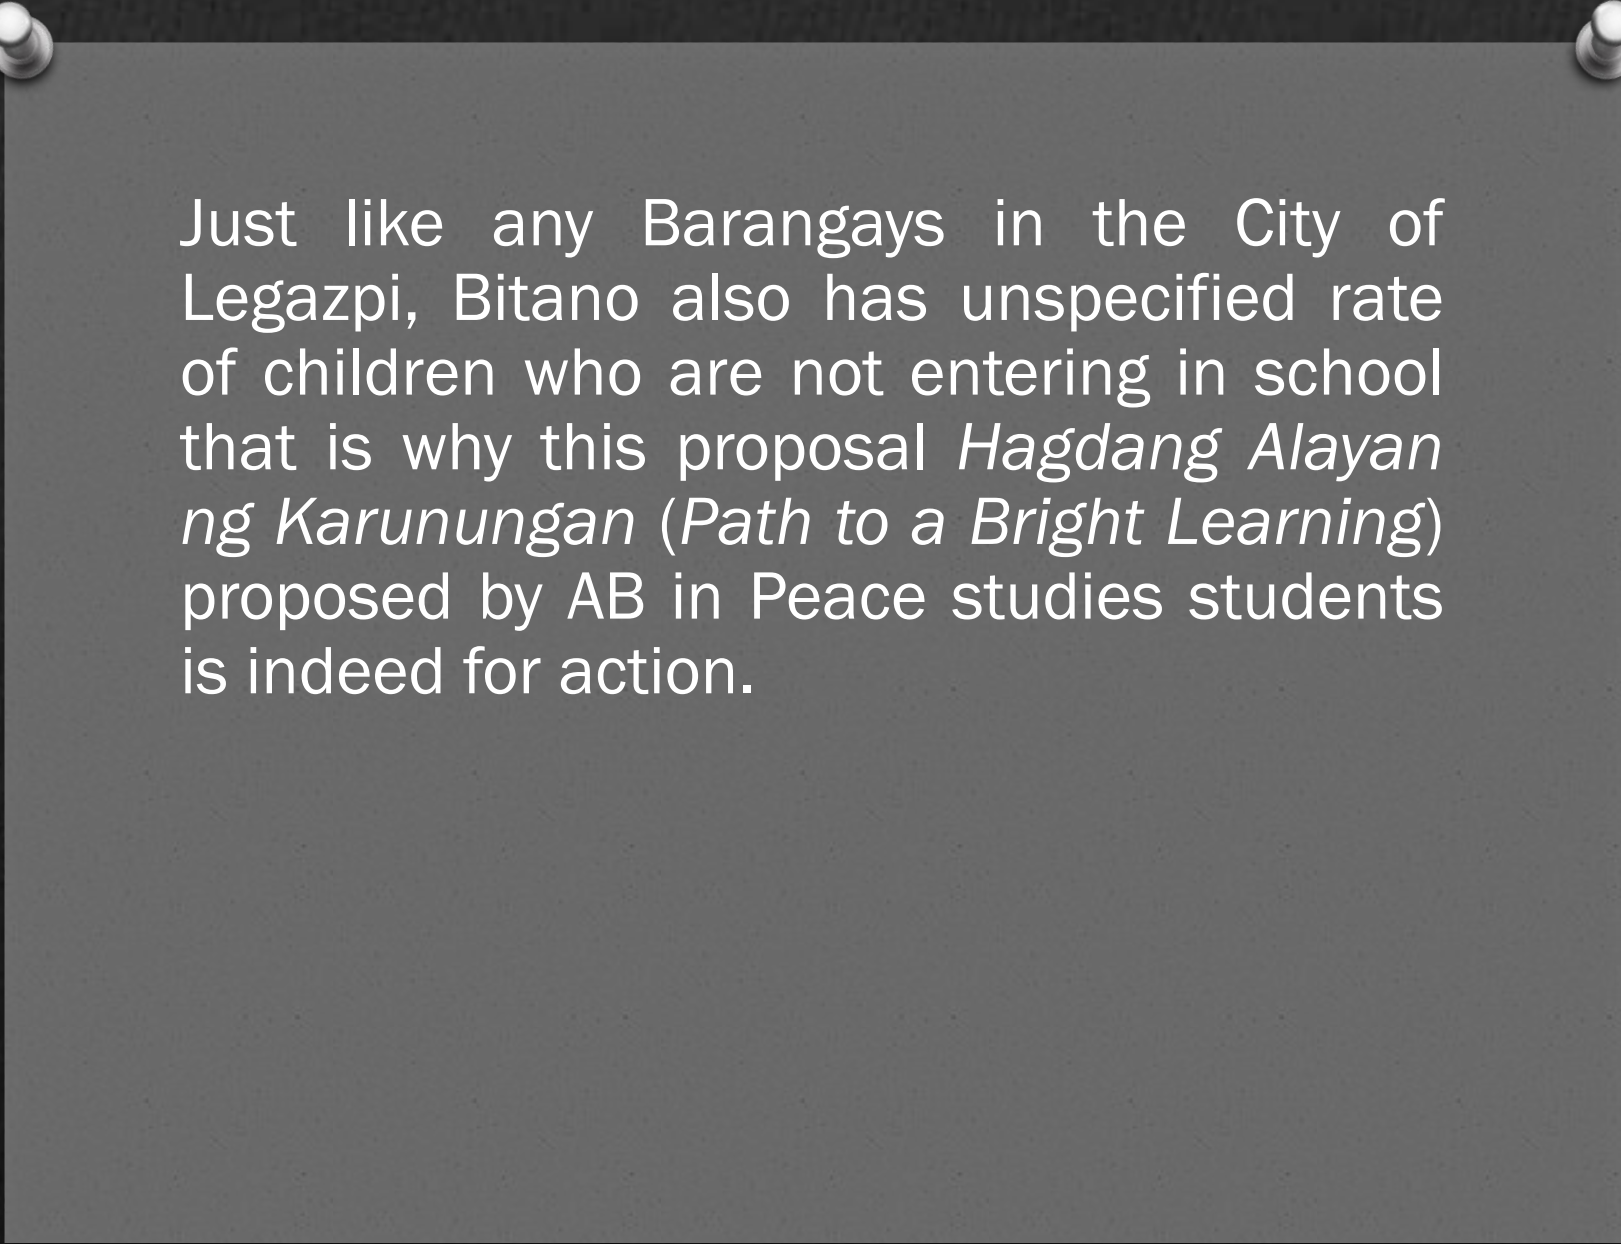

According to R.A.10533 Section 3, Basic Education is intended to meet basic learning needs which provide the foundation on which subsequent learning can be based. It encompasses kindergarten, elementary and secondary education as well as alternative learning systems for out-of-school learners and those with special needs. In this connection, education is one of the fundamental rights of a person. It indicates that education should be given in an early age in order to cure ignorance but then social problems stills hinders their eagerness to learn.

United Nations Educational Scientific and Cultural Organization (UNESCO) is one of the organization that is against discrimination in education (1960),

Many countries ratified the International Covenant on Economic, Social and Cultural Rights (1966). They affirm that the aim of education is to promote personal development, strengthen respect for human rights and freedoms, enable individuals to participate effectively in a free society.

Just like any Barangays in the City of Legazpi, Bitano also has unspecified rate of children who are not entering in school that is why this proposal *Hagdang Alayan ng Karunungan (Path to a Bright Learning)* proposed by AB in Peace studies students is indeed for action.

MAP OF BITANO

Bicol University Mission

The Bicol University shall give professional and technical training and provide advanced and specialized instruction in literature, philosophy, the sciences and arts, besides providing for the promotion of scientific and technological researches.

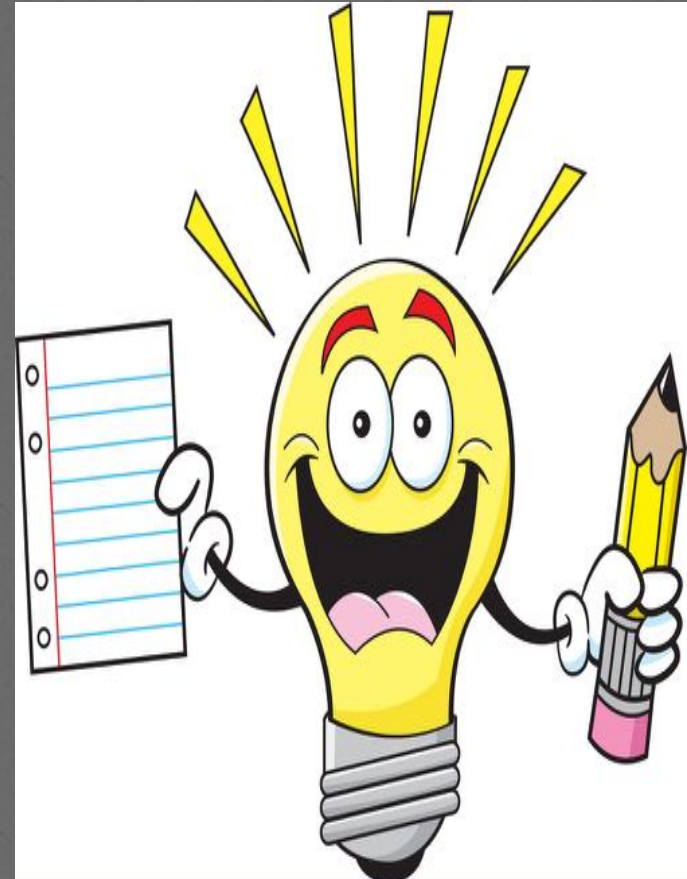

Bicol University Vision

A World-Class University Producing Leaders and Change Agents for Social Transformation and Development.

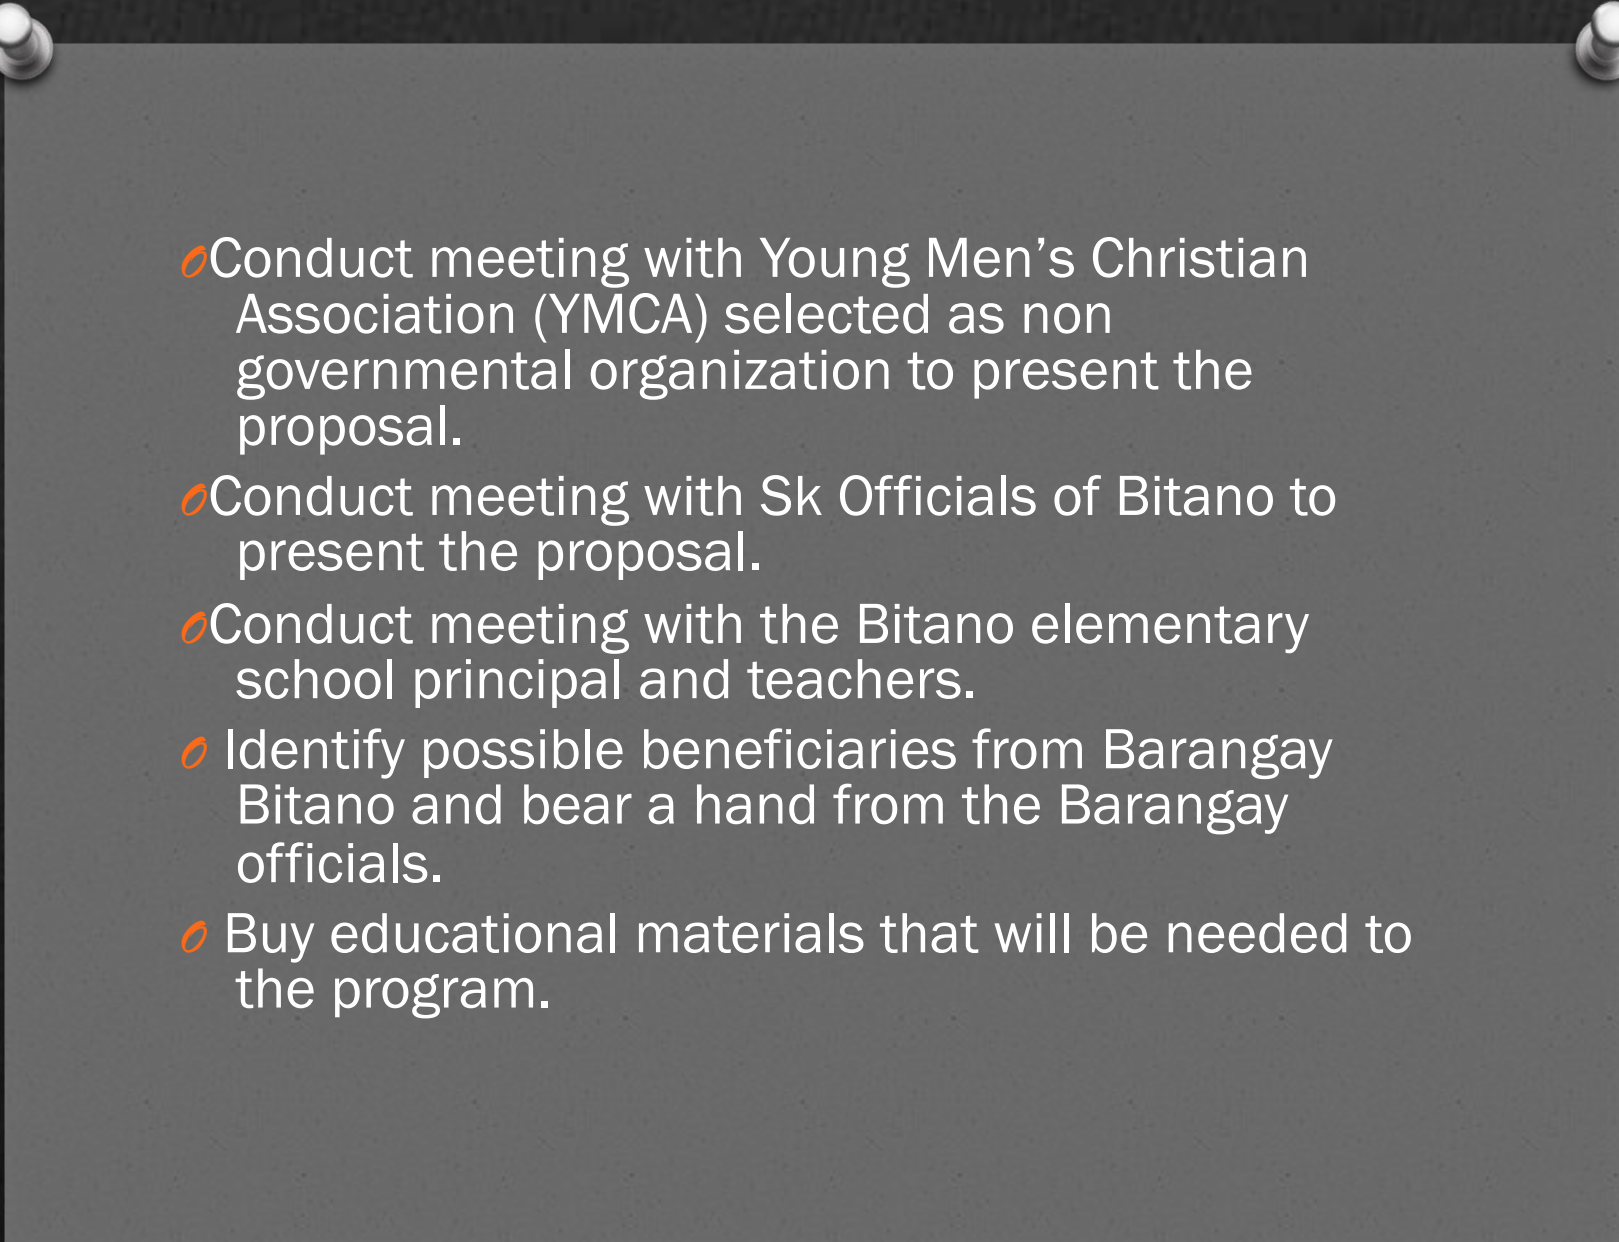

Objectives of the Action Plan
