

# CLEAN ENVIRONMENT ACTION PLAN IN HIROSHIMA

Yasuda high school

Mai Osato

Akane Hayashidani

Momoka Heya

Shiho Miyagawa

Honoka Yoshina

# “Why?”

We value cleaning, because we believe that cleaning will make both the place and our heart clean. Our school has a belief that it is really important to make it a rule to clean. In that way , the place will be more comfortable to live in , which will make people happier. We are keeping our school really clean by not only cleaning after school which is compulsory , but also morning cleaning which is done voluntarily. However , some public places in Hiroshima have many graffiti and mess, which makes us feel really bad .

# Why cleaning has something to do with peace?

We learnt that crime rate is much higher in a dirty city than clean city. Crime is something that deprives our society of peace. So we reached the idea that by cleaning, we can decrease the number of crime. And for sure, this will contribute to creating peace.

# Advantages and disadvantages

- The advantages are that by having everyone clean the environment together. These people can build a sense of unity, while at the same time raising motivation towards cleaning the environment .
- The disadvantages are that because the people participating in cleaning the environment are doing so by their own will, even if they clean the country and its surrounding environment. There is a possibility , that it will get dirty again.

# Solution

To solve this problem we, the people who will be managing this activity can post pastels and flyers to raise the awareness of the people to keep the community clean.

# TIMELINE

MAY.	Our school has affiliation with other high schools in Hiroshima. Going to announce our project.
JUNE.	Hold the 1 <sup>st</sup> event
JULY.	affiliation again to the school in the Hiroshima . going to announce
SEPTEMBER	Hold the 2 <sup>nd</sup> event

# Effect

By reducing the amount of garbage and graffiti, the atmosphere of the whole town will get better, which in return will create an environment that will discourage crime.

# Thank you for listening!
