## Preparation (Pre-Program)

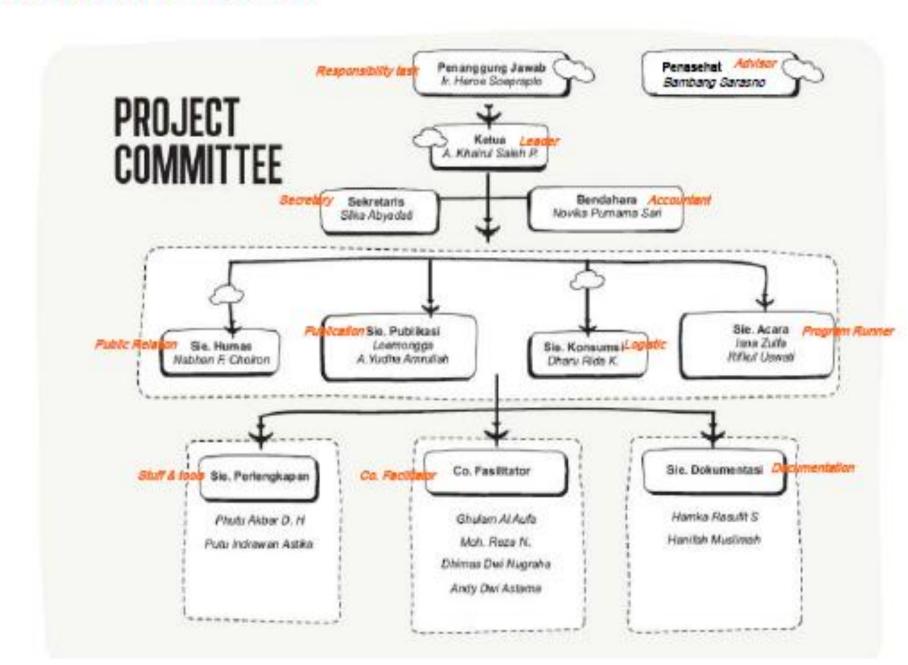

Concept

The process in making concept of the program Encompass Bhinneka Camp take times. The basic concept of the program was adapted from the program Journey of Understanding, which was intergrate the fun workshop about multiculturalism with outdoor activities (outbound).

After the making of the basic concepts, teams started to arrange the manual book, and the breakdown of Bhineka Camp activities. This process takes a long time. Constraints that faced by the team in this process include the PIC distracted by other activities and also job is so difficult to coordinate. In addition, the concept of manual book has not been well understood by the team thus making common mistakes and adjust the changes in the breakdown of activities.

The making of the breakdown and the manual book were arranged in the same time. Ideally this is done first. .the changing of event breakdown often caused by workshop (game) that used is not compatible with the aims of each point of the event.
