# Background

1

- Indonesian geography, it is located in the ring of fire and usually there are more than 2 major natural disasters per year (e.g. flood, eruption, landslide, etc)

2

- Negative impacts both in material sides (infrastructure, etc) and also immaterial sides, such as physiological side of the victim

3

- Many youth who want to do volunteerism want to contribute to the nation but there is no place or platform that focus on youth in it

## MAIN OBJECTIVE

To make youth more aware, care about the society and share knowledge about disaster management to youth in Indonesia

## SPECIFIC OBJECTIVES

- To make youth as a ranger who has a fast response to disaster
- To improve sense of leadership in youth by following this program
- As a place or platform for youth who care enough to society and want to be volunteer to help and contribute to the nation
- To make Natural Disaster Ambassadors in each province in Indonesia who will spread knowledge to society in their province and want to be volunteer to help and contribute to the nation
