INDONESIA

Save the Coral Reef

The Question

What's Ocean Peace Garden ?

What's the activities in the ocean garden?

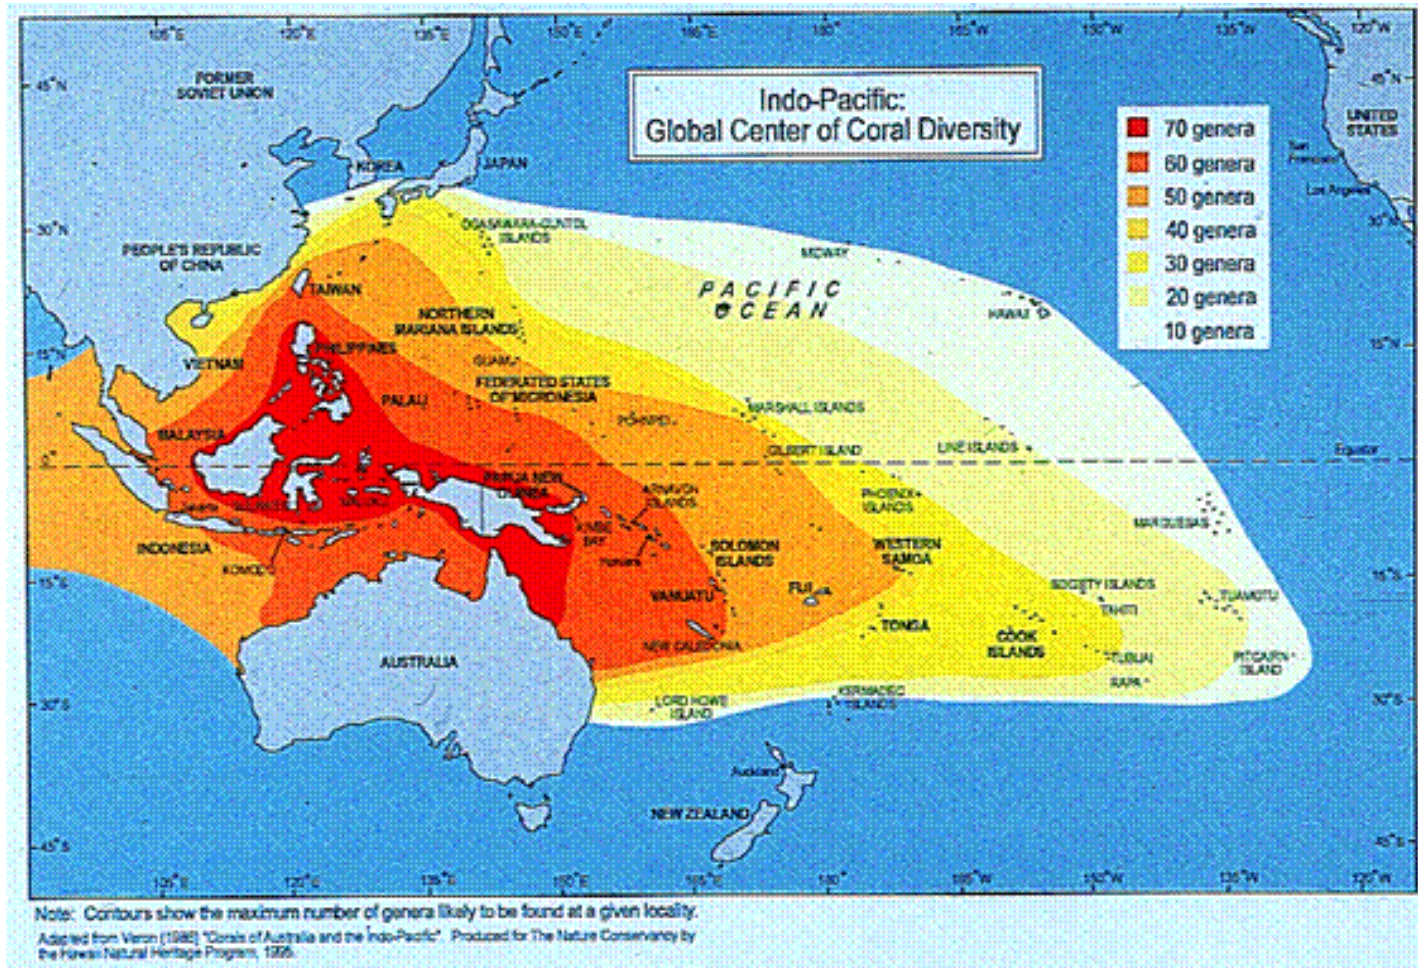

Why must we have an ocean peace garden??

How about the result?

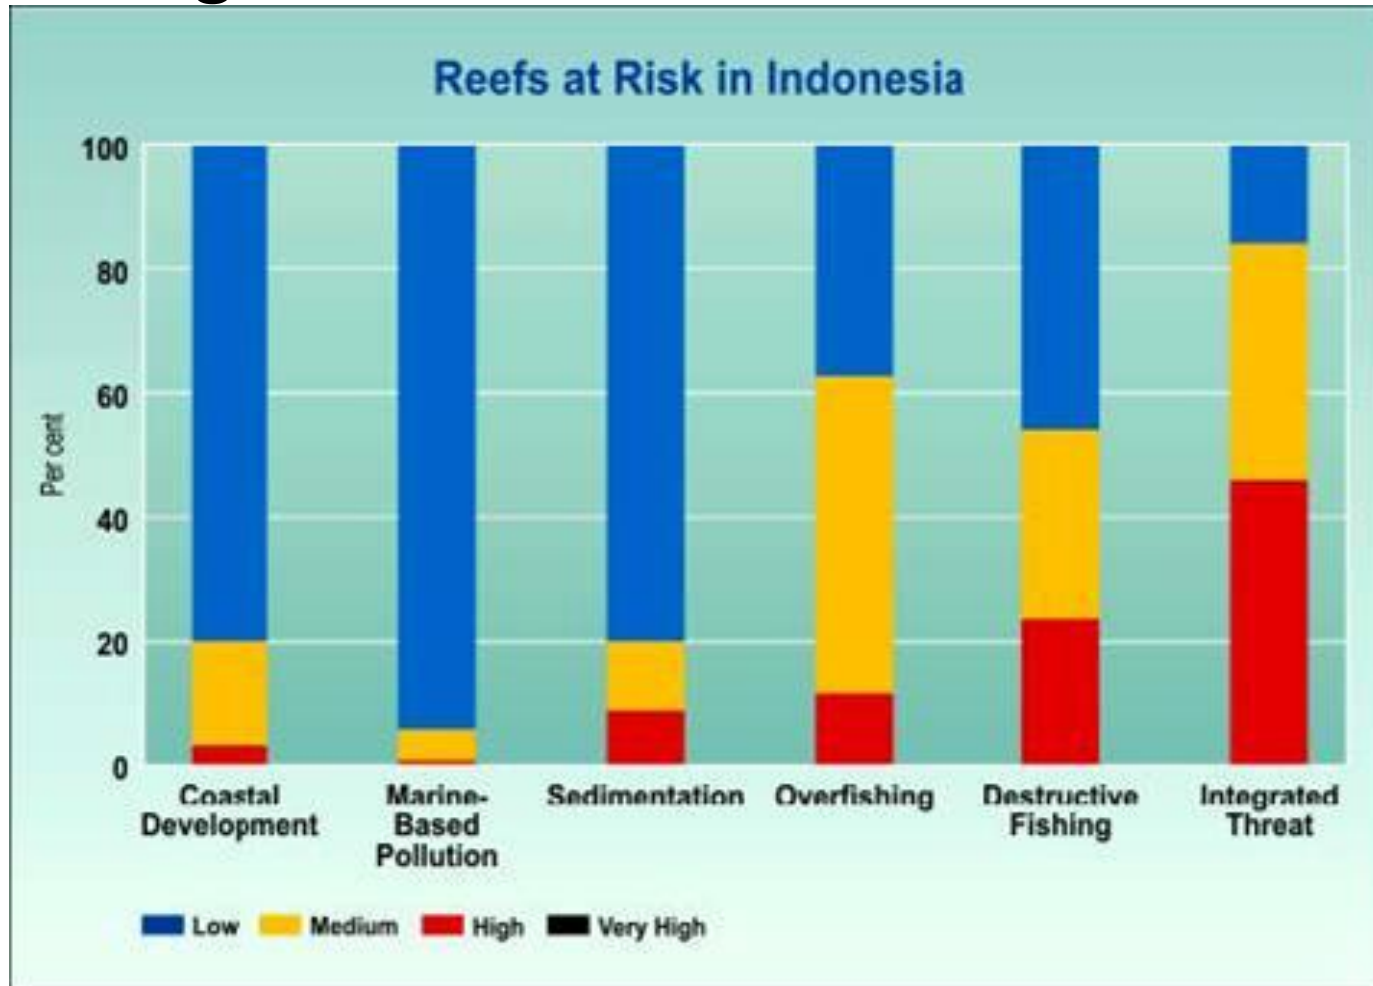

Indonesia is an Archipelago

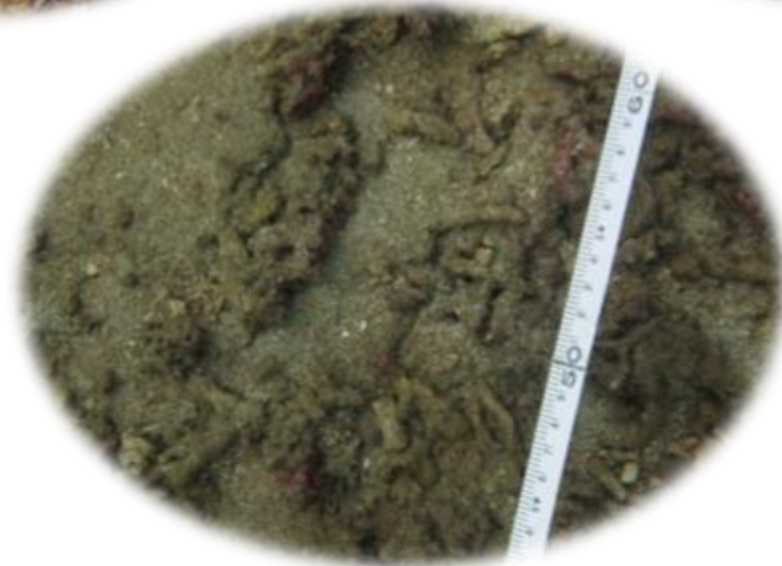

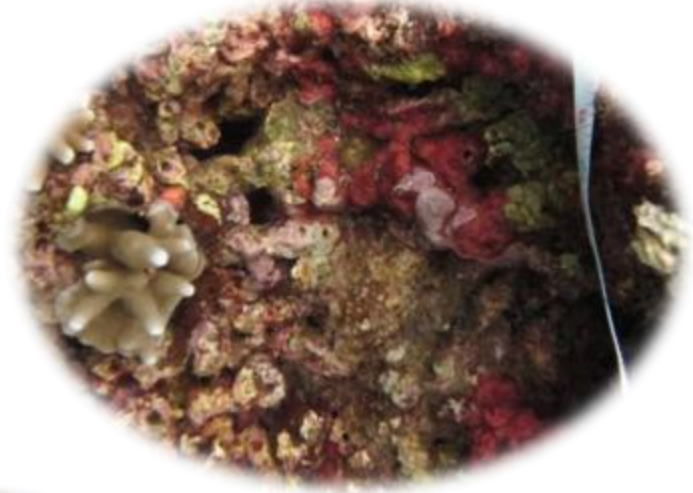

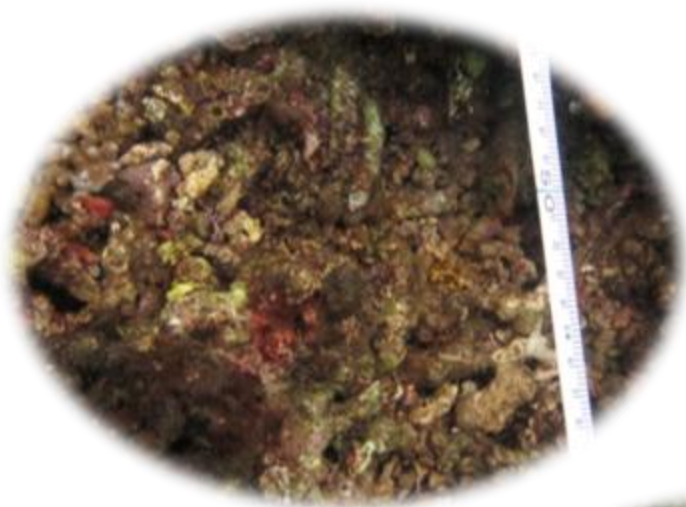

Indonesia is one of a part CTI (coral triangle initiative) in the Asian region, with thousands of island and big coastal area

The new case

80% of Coral Reef in Indonesia on the High Danger Condition

Research of Prof. Supriharyono (Diponegoro University)

If coral reef in Indonesian become a dangerous condition it will cause abrasion and degradation in coastal areas,

Ocean Peace Garden is one of the peace symbols in the marine area, to make every one become responsible and raise awareness to always conserve the sea

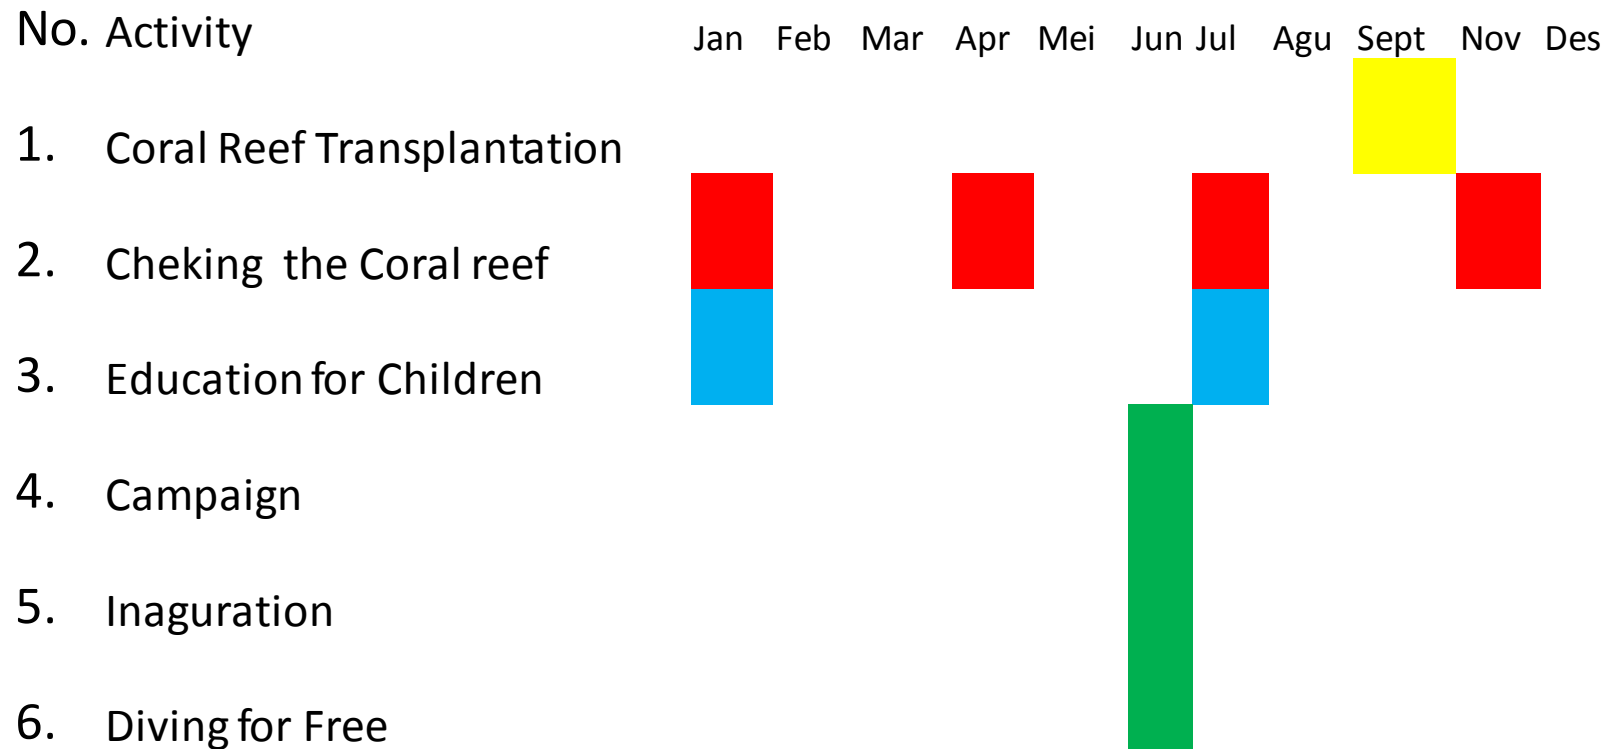

What Activities??

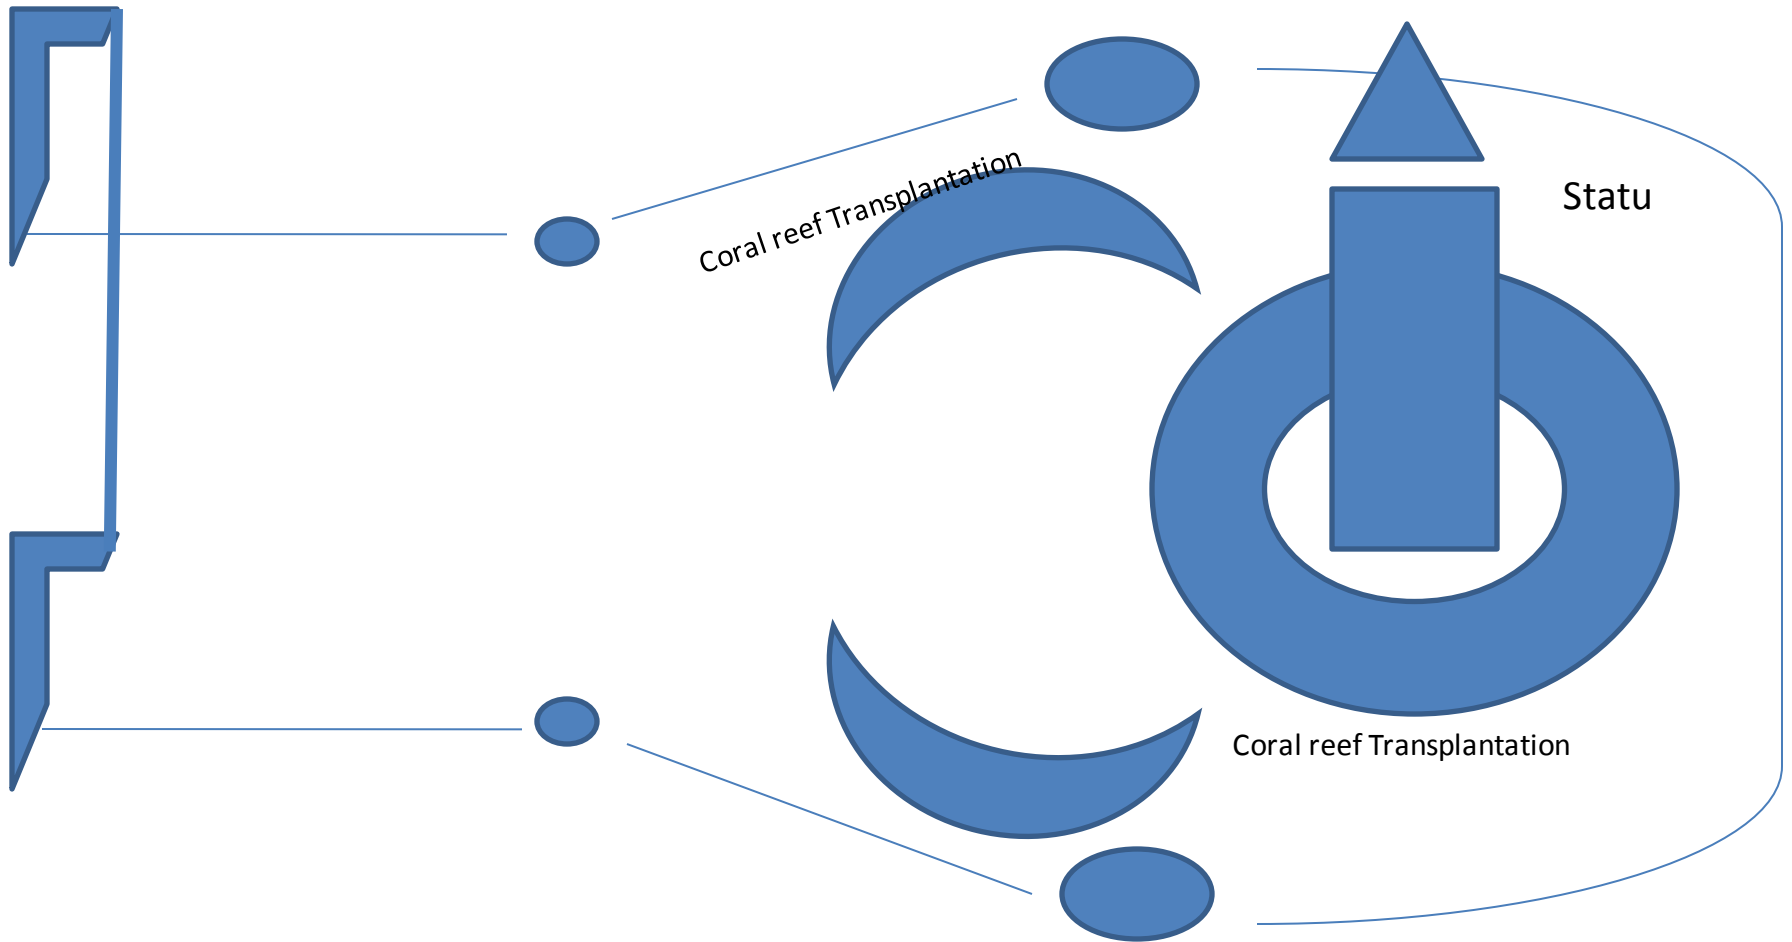

- Education for the Children in Coastal Area
- Inauguration with other UNESCO YPAs
- Teaching All People to save a coral reef with transplantation
- Campaign to save the coral reef, with pamphlets, and television.
- To check a coral transplantation Growth
- Diving Together for Free,..”

Time Line OCEAN PEACE PARK, Karimun Jawa island 2011 - 2015

Structure of Ocean Peace Park

How to Support Us

- Ministry of Fisheries and Marine
- Ministry of Culture and Ecotourism
- Diponegoro University
- Diponegoro Diving Club -387
- Local Company
