

REPUBLIC OF INDONESIA 2012

BACKGROUND

UNESCO is building peace in the world through empowering youth from different countries across Asia and the Pacific, and across the world, to share experiences of working to promote the culture of peace and to develop practical action plans with the inspiration of the young people. One of the way of UNESCO to embody these goals is by organizing the Fifth UNESCO Youth Peace Ambassador 2012 involving almost 120 young leaders to build peace through holistic view of peace, health, development and the environment.

In accordance with the objective of UNESCO, it is needed a green networking platform to achieve peace. That green initiative is **Indonesian Greenaction Forum (IGaF)**. It is not only established for embodying peace but also for achieving sustainable environment in Indonesia. This organization will be built under auspice of TUNZA Eco-generation, UNESCO-Jakarta, UNESCO-Bangkok, International Peace and Development Ethics Centre, and Eubios Ethics Institute as well as UNEP TUNZA SEAYEN.

After getting financial assistance from UNESCO-Jakarta, UNESCO Youth-led Initiatives Grant Scheme, as a great bridge of UNESCO-Jakarta to contribute to the building of peace, the eradication of poverty, sustainable development and intercultural dialogue in Indonesia involving potential youth as agent of change, IGaF endeavors to execute and implement some eco-projects in form of WORKSHOP. The eco-projects will be held by some ambassadors and supermembers as well as the standing founders of IGaF. The main projects will be committed which are Eco-education, Coastal Peace Park of Mangrove Forest, Garbage Education as well as IGaF in Action executed by Ambassadors and Supermembers of IGaF including *Srikandhi Trash Bank, Konservasi Pakan Badak Sumatera di Taman Nasional Way Kambas, Parahyangan Move On, Manggarai Green Ambassador, Conservation through Education and Empowering the Local Community, Sosialisasi Cagar Biosfer Giam Siak Kecil Bukit Batu untuk Membangun Ekotourism Potensi Budaya, Lokal dan Kampanye Plastic Bag Diet and Because We Have Only One Earth.*

OBJECTIVES

The objectives of IGaF's eco-projects in form of WORKSHOP are classified into two objectives which are general objective as imperative and specific objective. The general objective is an imperative to engaging active and passionate children and youth as well as environmental organizations to advance their environmental awareness, role, action plan and commitment in environmental conservation. The specific objectives are :

- 1. to broaden knowledge and mutual understanding regarding environmental issues globally especially in Indonesia;
- 2. to exchange and share environmental information in Indonesia including best practices between members of **Indonesian Greenaction Forum** nationally and internationally;
- 3. to provide a environmental networking forum by cooperating with national and international organizations and a voice for children and youth in achieving a sustainable environment through their greenactions.

GOALS

The goals of IGaF's eco-projects in form of WORKSHOP are:

- 1. to embody sustainable environment and sustainable development as well as peace in Indonesia through environmental actions that have been executed and sustained;
- 2. to be the great bridge and valuable environmental networking platform connecting among children and youth with the United Nations agencies that concern in environmental issues and to build the sustainability of green organization;

3. to persuade and get together more than 2500 children and young leaders in nurturing and conserving environment.

TARGETS

This WORKSHOP will continually involve more than 2500 children and youth from Indonesia by spreading the message about environmental awareness and promoting the eco-projects conducted under guidance of IGaF. They must be active and passionate young people that do action plan, role, and commitment capably.
