PROBLEMS

- The reality about social and economic problems. Fishermen hunt sharks to get money.
- Buying and selling shark fins is a big business
- The government doesn't give support to observation of sharks

PICTURE ABOUT SHARKS AND SHARK FINS

Shark fins are dried.

<https://www.google.com/search?q=sirip+hiu+kering>

Fishermen sell shark fins because the price is about
Rp 1 million – Rp 1.5 million (USD100) for each
kilogram.

- Sometimes the carcasses of sharks without fins are lying in the sea around the coast. The dead sharks were left there. They will be taken for meat and they are sold for 15,000 rupiah per kilogram.

PROJECTS

❑ For Society

Socialization to fisherman community to be more aware of advantages and functions of sharks, so they don't hunt sharks. Or if they do they do not only take their fins.

❑ For Sharks

Make shark themed accessories that will be marketed, so the result of the selling will be given to help sharks in captivity in Karimunjawa

Sharks captivity places

Swimming with sharks

TIMELINE (2014)

Programs	Month						
	feb	march	april	may	june	july	august
Committee Meeting							
Collecting fund							
Looking for volunteers							
Survey							
Action Project (Socialization & Sell shark accessories)							
Evaluation							

OBJECTIVES

- There is no shark hunting for taking their fins.
- Sharks can be saved by captivity. It will help reduce the risk of extinction.
- Public awareness about shark hunting ban from government regulation
- Sharks captivity can be used for resort place
- The population of sharks in Karimun Java Island increase.
- The amount of shark which has been caught decreases.

CONCEPTS

- Making a collaboration with BTNKJ (National Park Agencies Karimunjawa), a government organization that manages the conservation environment in Karimunjawa.
- Gathering with societies and giving the counseling (socialisation)
- Captiving sharks that are caught to avoid them from extinction.
- Selling the accesories about sharks to rescue sharks. The advantages of selling is used for helping sharks captivity cost.

BUDGET

- Socialiation : USD 45
- Captivity : USD 1000 / year
