Conflict based on Indonesia' s perspective

Despite many cooperative activities, there is a conflict between two both countries over the origin of some common cultural practices.

Some things these Malaysia claims include:

1. Angklung, originally came from West Java province, a Sunda culture
2. Reog, originally came from east java province, a Javanese culture
3. Rasa Sayange song. originally came from Maluku province in east of indonesia
4. Rendang/Padang Food. originally came from west Sumatra

Why does Malaysia claimed these things?

Maybe Malaysians feel the same about Indonesia?

Conflict Based on Malaysia's Perspective

Based on Malaysia perspective of the claiming culture :

Misunderstanding of art identity.

Prof. Dr. Sam Abede Pareno says that “Malaysia could see the culture, then claim, because of the same ethnic “Malay”.

Example :

Reog Ponorogo.

Malaysia believes that it comes from Malay. So, it's the right for Malaysia to claim this culture belongs to them. Because Indonesia and Malaysia are the same culture and tribe.

Resolution

So, what will we do to make peace between both of the countries, Indonesia and Malaysia?

1. Socialization about the real facts which happen with both countries, about the claimed cultural practices
2. After we educate them, we would make a poster about their opinion, with both of countries.
3. We would make some video interviews to each youth from both countries about Indonesia and Malaysia in Peaceful Life
