

Mr. Dhia Octa Dessandhya Aggaputra (Indonesia)

(dessandhya@yahoo.co.id)

My name is Dhia Octa Dessandhya Aggaputra, but you can call me Octa. I was born in Bekasi, Indonesia, 26th October 1992. After graduating from Al Azhar 4 Senior High School in 2010, he continued his studies in Gadjah Mada University, Yogyakarta, majoring in Geological Engineering.

Indonesia has a lot of natural disasters such as volcanic eruptions, landslides, tsunamis, earthquakes, etc. because of this reason he would like to learn more about the disaster risk reduction and disaster management. He hopes by participating in Looking Beyond Disaster 3 in Kobe, he can get more experience and knowledge about disaster risk reduction and disaster management, and then could implement it for the local community in Indonesia.

You can contact me at dessandhya@yahoo.co.id or find me on facebook “Andhy Aggaputra”.
