

Moments of Joy

Emily Stevenson & Grace Morgan - Maxwell

Our Idea

- Our idea was inspired by the service project with Addington Action
- Social inequality has been made worse by the earthquakes here in Christchurch, and many people are facing a difficult time this coming Christmas
- We hope to build strength, bring people together and bring Moments of Joy to families in our local community

Objectives

- Specifically we will partner with local businesses, friends and our community to help fund and donate items for our boxes
- We will work with existing organizations to identify those who are most in need
- We hope to put together boxes that contain delicious food, some fun gifts, and other items that will make Christmas an enjoyable time

Looking beyond Christmas

- Initially we want to focus on Christmas, while also looking beyond this initial event to other potential projects
- Some of these could include:

Looking beyond to 2012

Some of the projects 'Moments of Joy' will engage in:

- With support from JCI we will make the following projects a reality in Christchurch:

Children's fun days: based round public holiday's like Easter and Waitangi Weekend. We will have games, art activities and food, also hopefully local.

Budget cooking classes: teaching the communities low-cost effective cooking.

- We will also be coordinating with 'Beyond Trauma' (Shawn Moodie's group) with their pilot programme here in Christchurch East: bring art therapy

+ Further.. We would like to establish a Time-Raser

- An event where we connect local artist work with a corporate event, where professionals will bid their time on artworks. The winner of an auction will then volunteer that time which will be utilized by Charities.
- This doubles as a means for networking with a combination of young professionals, local artist and charities.
