

Disaster education as extracurricular activities for elementary school student

Chalida Zia Firdausi
Indonesia

- Many Indonesian children live in dangerous areas
- There is a lack of information, knowledge, and awareness about disasters that Indonesian children face
- No education or information promotion about disasters

Problem

- Raising awareness about disasters
- Increasing capabilities:
 - To prevent disasters
 - Respond to disasters
 - Recover from disasters

Goal

1. North Jakarta (NJ)

North Jakarta has high risk to get earthquakes, tsunami, flood. There are slums along coastal areas.

2. Banten

Banten is located next to Mt. Krakatau. If Mount Krakatau explodes again it will cause earthquakes, tsunami, hot volcanic ash.

3. Bantar Gebang Bekasi (special case).

In Bekasi there is a giant mountain of Trash. It has a high risk to be burned and cause landslide.

Location

- 1. Giving explanation/information about disaster outside class hours. The explanation is about how to prevent, respond, and recover from disasters.
- 2. Watching movies/videos
- 3. Doing simulation and games

Activities

4. Sharing session (writing stories, oral sharing)

5. Mangrove plantation

6. Workshop for parents, teachers and students

7. Final examination at the end of the program

8. Accidental activities

.....

Activities

- For formal school, the class will be held after school on saturday
- For non formal school, the class will be held every Saturday/Monday
- The duration of the class is about 90-120 minutes.
- one class handle by one teacher.
- The class will be ended after two or three month
-

About the class

- Videos
- Movies
- Poster
- Games
- Books
- Photos
- etc

Media

- School of volunteers in University of Indonesia

- Create a better concept. be Innovative

January 2013

- Develop more classes in others school, I hope it can spread to all over Indonesia.
- Recruit more volunteer teachers
- Develop the curricula with aims that the curricula of disaster can be taught formally in school.
- Build international partnership
- ` Push ` the government to give more attention for disaster education and management

Long term program

- Material support = USD 140
- Proposal, transport, = USD 60
- Communication

Total budget = USD 200

**Predicted Budget for September
and October 2012**

- Assessment to do after class/activities
assessment focus on :
 - how the situation in the class/activities
 - how the respond of the students/parents
 - how the result/progress of the class/activities
- Evaluation at the end of month, including :
 - evaluate the financial condition
 - evaluate progress of class
 - evaluate the curricula
 - evaluate the teachers
 - evaluate the method/technique
 - evaluate the partnership

Assessment and Evaluation
