LBD4 Action Plan

Introduction

As a Paulinian community we value our advocacies such as Environmental Stewardship, Pro-life, Peace and Social Responsibility. This project focuses on one of our advocacies, Social Responsibility. Through this project, we will help the badly affected areas in Northern part of Iloilo in the recovery of their lives and livelihood. The Paulinian Community will provide knowledge, values and skills to aid their recovery.

Vision

This project aims to help communities who are badly affected by the disaster through conducting a sustainable program and recovery activities.

Mission

1. Provide knowledge and develop skills through mentorship and teaching of different strategies on how to rebuild their livelihood and lives.
2. Aspire to foster shared values to be able to recover emotionally and spiritually.
3. Help the children recover through post traumatic stress therapy.

Background

Our continuous relief operation started November 2013 in the Northern part of Iloilo. Aside from relief operations we are continually providing, we are planning to provide another project that will not only supply with what they need but equip them also with knowledge, values and skills in order for them to sustain their needs and for the children to provide post traumatic stress therapy.

Partnership

The project will have a partnership with the organizational officers, Hotel and Restaurant Management (HRM) faculty and students and College of Teacher Education (CTE) faculty and students of St. Paul University Iloilo, the Social Laboratory Extension Program (SLEP), and Department of Social Welfare Development (Iloilo Chapter).

Summary of Action Plan

This action plan will be done in detailed preparation and planning and it will be disseminated to those who are involved in the project. Since our partners will choose what community will be our focus, we will provide activities where we will have interactions to get to know each other to have a smooth flow of implementing the project. Lastly, we will visit them regularly for follow up.

Goals

- The parents will acquire skills and knowledge in the livelihood Project.
- Engage participants in Income Generating Projects.
- The children will recuperate with the disaster they encountered.

Budget Needed

Transportation (Php 600 per session)

Ingredients (Php 1 000 first two sessions)

Handouts/Notes (Php 1 00 first two sessions)

Target

Communities from Northern part of Iloilo who are badly affected by disaster.

Timeline (2014-2015)

April – May : Planning

June : Dissemination of information to those who are involved

July : Interactions with the community

August – October : Implementation (Orientation and Actual training, activities and Feeding Program for the children)

November – February: Follow ups

December 2014 : Gift Giving Program for the children

March 2015: Culminating activity

Conclusions

This project will greatly help the affected families of the calamity not only in their livelihood but emotionally as well. If they are consistent in cooperating with this project they will have stable income to help their families, to be independent and to help their selves get back to their normal lives that were destroyed by the typhoon Haiyan. The children will also recover from trauma and stress through the activities being provided for them.
