

Rouella Mae Gutierrez (Philippines)

rouellagutierrez93@yahoo.com

I was born in Lucena City, Philippines on July 7, 1993. I am the current Vice President for External Affairs of the Paulinian Student Government (PSG), the over-all student governing council of St. Paul University Quezon City (SPUQC). I am also an active member of the Mass Communication Society.

I have always believed in the power of youth. I know that the youth can always contribute much in our society. I am interested to know the capabilities of youth and what contributions can they give to the changing world. Through participating in different seminars locally and internationally, I get to know different cultures, plans, and action the youth do, I am also able to share my own talents, skills and experiences to them. As a communication and arts student, I know that I can relay whatever information I get in a way the youth can be interested with. I know that with what I do, there is a difference I make.

For more information you can reach me through my e-mail:
